

# S. Ronan's Magazine.

April, 1911.

## Editorial.

EVERYONE seems to have been complaining of the "measly" weather. Not so we at S. Ronan's. Never within our recollection, has the clerk of the weather smiled with such beneficence on Worthing during the Lent term ; never, at this time of the year, have we enjoyed a more perfect bill of health than during the past three months. The term has been entirely satisfactory ; no disagreeable or untoward incidents have occurred, and steady all-round progress has been made. The standard of work is going surely up, and it is a matter for satisfaction that Coldham has been placed high up at Repton, following closely in the footsteps of Goodall. We hear from Wellington also that Mansell did a satisfactory examination. As to games, we do not play them during this term in such a serious spirit, but so far from finding it monotonous, it is difficult to fit in the various enterprises on which we embark. This freedom from "ennui" and monotony is not, however, due so much to number of things going on, as to the fact that we have no "grousters" in the School ; everyone is ready to enjoy himself, and should the seeds of discontent at any time rise uppermost in a boy's mind, public opinion is so much against him, that he hurriedly plants them on stony ground where they take no root.

Much excitement was caused latterly by the ceremony of filling up the Census ; indeed, for the time being, we considered ourselves, quite the most important people in Worthing. The delicate age question was surmounted without any very terrifying scenes. We are glad, however, that the performance is a rare one. We are all looking forward to the Summer Term, which, given good weather and good health, promises in every way to emulate its predecessors.

## School Notes.

The Summer Term will commence on Friday, May 5th. All boys travelling *via* London will be expected to catch the 3.35 p.m. train from Victoria on which there will be a saloon with a master in charge.

\* \* \*

The Summer holidays will begin on Thursday, July 27th.

\* \* \*

G. H. Coldham has passed the common entrance examination and goes to Repton in September. He has been head prefect for two terms, and like his predecessor H. M. Goodhall, no one could have filled the post more satisfactorily. He takes with him our united good wishes and leaves behind him a gap which it will be hard to fill. No one has had a better influence in the place and very few as good.

\* \* \*

J. S. T. Mansell is also leaving this term and enters Wellington, where he will find several S. Ronan's boys awaiting him. We shall all miss his cheery face and unquenchable spirit, and we are sure that he will be as popular and as successful at Wellington as he has been with us. Good luck go with him !

\* \* \*

The vacancies for the next term caused by the departure of the above boys were filled some time ago, so that there will be no decrease in our numbers.

\* \* \*

The Lord Chief Justice of England has expressed his willingness to come down and present the prizes at the Athletic Sports which will take place on May 20th. We very much hope that nothing may occur to prevent him being here on that date, as it will be most interesting to everyone that such a famous old athlete should perform this function.

The Chess Competition was won by E. A. Barclay-Smith. For some time the competition hung in the balance, and it appeared quite likely that either Morris, ma., or Abraham might carry off the prize; the former, however, for some unknown reason, quite failed to play up to his best form, while the latter, after a promising beginning, broke down on several occasions in an unaccountable fashion. Barclay-Smith was no doubt the right winner for he is certainly the best Chess player in the School, but to our mind, if we may offer a small criticism he is inclined at times to sacrifice too much to theory. Book work is all very well in its way, but practice is usually better than theory, and in Chess one likes to see initiative.

\* \* \*

The Soccer Sixes were won by H. M. Morris's team. They were unusually even this year, and some most exciting and excellent games were witnessed. Malcolmson's created somewhat of a surprise by going through to the semi-final, and beating Hadley's team who were the favourites, but though the last game was an interesting one to watch, Morris's were fairly easy victors.

\* \* \*

The Grub Shop out of its hard-earned profits has presented the School with a fine Badminton set. This will be of great use in filling up odd moments during the Summer Term and preventing the ordinary games from falling into monotony.

\* \* \*

We are sure the "Daily Mail" will like to know that we have adopted "Standard Bread." Personally, the writer prefers the other, but most of the boys don't, so that is all right.

\* \* \*

Boys will be allowed to go up for the Coronation, if their parents wish it. There will, however, be no regular Mid-term Holiday, but something added to the Summer Holidays—as obviously it is an event in our lives of which some notice must and should be taken.

May we, with all respect, suggest that parents should keep a careful watch on their sons during these holidays ; illness is still rife, and it helps the Schoolmasters a lot if they can get a clear start.

\* \* \*

Unlike the Cambridge Crew, nearly every boy in the School has gained considerably in weight during the past term.

\* \* \*

Next term's vacancies will be filled by the following :—

F. L. Vogel.

M. H. Horne.

J. L. Maidlow.

## Smith, Minor, on Parental Grumbles.

*Ego sum miserior quam tu, qui es miserrimus.*

Radicals, my people moan,

Them and all their kin tax

Most unfairly ; let them groan !

They don't grind at Syntax.

Let the land and owners go,

Spoiled by hard exaction ;

No one growls if they don't know

Relative Attraction.

Though they raise a doleful hum,

Lloyd George to describe, Oh.

He don't set them εἰμὶ sum,

No, nor εἶμι ibo.

Though they cry they can't grow rich,

Taxed on Unearned Income ;

They don't learn the verbs with which

Quominus and Quin come.

That's *their* grievance, hear *me* speak—

Blow all verbs Prolative !

Down with Latin ! Down with Greek !

Hang the Ethic Dative.

## Old Boys' Column.

Our congratulations are due to G. St. J. Dyson (Harrow) on getting into the Sixth form. We hear he will be shortly going into the Army.

P. S. Hadley did splendidly in the under sixteen-and-a-half events at the Charterhouse Sports. He won the hundred, long jump, and cricket ball, and was second in the mile and quarter-mile. It will thus be seen that he is fully bearing out the great athletic promise he showed while here.

F. W. Pink has got his first eleven colours at Westminster, and will be captain of next year's football team.

We were very glad to welcome E. L. and N. S. Bostock (Haileybury) at S. Ronan's the other day. They were much interested in seeing the old School again and in noting the changes which have taken place.

Another visitor whom we welcomed with pleasure was H. L. Greaves (Haileybury) who was in the School in Mr. Newcombe's time.

Our congratulations, though somewhat belated, are none the less sincere to B. G. Chapman (Malvern) on being placed in the Army Class, and also on gaining his house colours at football.

M. M. Sayer (Rugby) has been adding to his many laurels gained at that School, by winning matches for them at Chess; his latest feat was to play two other people at once, being blindfolded himself; he won too!

L. C. Heygate (Radley) stayed with us during the last few days of term; we were all delighted to welcome him.

All news as to Old Boys will be welcomed; we shall be glad also to insert any correspondence, though we reserve to ourselves the right of withholding such if it appear necessary.

## Scholarship Class.

Menu le 1 Avril, 1911.

*Hors d'oeuvres.*

Jeux de Grimley.

*Soupe.*

Faux Thrupp.

*Poisson.*

Fisher au naturel.

*Entrée.*

Hadley sur croute.

*Roti.*

Singe à perche, à la Mansell.

*Relevé.*

Jambon froid, à la Coldham.

*Pouding.*

Sourire de Barclay-Smith.

*Dessert.*

Tous les bonbons, à la Goodall.

*Orchestra.*

Oratorio, par Whinney.

"Half ein augenblick" par Mills.  
Horne.

## The Chapel.

Last Term's Collections were as follows :—					£	s.	d.
Sunday,	Jan.	29th.	Altar Linen	...	...	0	15 5
„	Feb.	5th.	Panel Fund	...	...	0	12 11
„	„	12th.	National Lifeboat Institution			1	2 6

				£	s.	d.
Sunday, Feb. 19th.	Panel Fund	...	...	1	2	11½
" " 26th.	Bishop of Chichester's Fund			2	0	2½
" March 5th.	Bishop of Chichester's Fund			0	17	6
" " 12th.	Panel Fund	...	...	0	14	7
" " 19th.	Universities Mission	...	...	0	18	9
" " 26th.	Universities Mission	...	...	0	15	7½
" April 2nd.	Panel Fund	...	...	0	17	4½

About £50 to £60 is required for the Panel Fund ; we already have £30, and in our next number we hope to publish a list of those who have so kindly helped us. Our grateful thanks are due to Major Tudor Craig for all the help he is giving us in the matter.

### Fashionable Intelligence.

Mr. Harris is spending the holidays at some obscure village in France, where he hopes to make himself as inaccessible as the Grand Llassa of Tibet. All urgent correspondence will be attended to by Durrant or Mrs. Doick.

Mr. Vinter is leaving Charing Cross on April 22nd for Lucerne, travelling by the 2.20 (Club) Train. He will be accompanied, of course, by the Roneo Copying Machine. It is consoling to reflect that the Continental Railways are good at losing luggage !

We all attended a lecture (by invitation) at Miss Fisher's on March 16th. Mr. Boyd-Wallis looked charming in his new brown suiting, and we hear a whisper that he made a great impression in one quarter !

Mr. G. Abraham wishes us to state that the rumour that Martha is going to take him through London is the merest moon-shine. As a matter of fact, he is travelling entirely alone, without even his luggage. He will probably spend one night at Dr. Barnado's Homes for Destitute Children.

Mr. Pat Mills has given up the seat so long associated with his name in Class II ; he has now taken a small place in I B for a term of years. He has been taking a good deal of Cycle excursion this Spring, and finds it very beneficial.

Mr. William Thrupp has decided to spend his holidays in Worthing ; he wishes us to say that all letters arriving after 6 p.m. or before 11 a.m., should be addressed :—Cot 3, The Nursery, S. Francis, Worthing.

Mr. Chapman is, we regret to say, suffering from a complete nervous breakdown, due to over work. He wishes to receive as few letters as possible during the holidays. We trust that rest and a careful diet may in some measure restore his tone.

Mr. Vizard has been ordered by his Doctors to try a complete change of air, and after much consideration, he has decided to spend the Easter holidays at HOVE.

The Nose-blowing day in Class III has been altered from Monday to Tuesday. It was thought better that this ceremony should take place on Mr. Vinter's duty day. Mr. Garrett (junior) was for abolishing it altogether.

---

## Report.

WALLIS.—Works very well, and is beginning to play quite nicely.

BURD.—Improving very much. Conscientious.

DUTTON.—Has made splendid progress with his scales. He should make a good pianist. A capital worker.

MORRIS, ma.—Has done really well with his pieces, but he forgets to practice his scales.

BROWN.—Improving very much. Correct ; good at theory.

THRUPP, mi.—Much better than he used to be. I think he takes a little more interest in his work.

WHINNEY.—Especially good with theory and has done good work.

THRUPP, ma.—Am sorry to say he does no good practice.

COLDHAM—Very good.

BROOKES.—Works splendidly, and will one day play very well indeed. Making great progress.

MORRIS, mi.—I think he could practise just a little more carefully. I am sure if he tries he would play nicely.

### MARKS FOR SCALES.

1. }	Whinney		5.	Coldham
	Dutton		6.	Morris, mi.
	Brookes		7.	Morris, maj.
2.	Brown		8.	Thrupp, mi.
3.	Wallis		9.	Thrupp, maj.
4.	Burd			

---

### Lectures.

We have been fortunate in hearing three most interesting lectures during the past term. The first one was held in Miss Fisher's Hall. It will be remembered that we frequently amalgamate with her on these occasions. The Honble. R. J. Yarde-Buller came down and delivered a most interesting and instructive address on "Life in the Navy." In these days when the tendency is so much in the opposite direction, it seems to us to be of the utmost importance to foster everything connected with patriotism, and for that reason alone the lecture would have been pronounced a success.

The second, by Mr. J. A. J. de Villiers, was on the subject of "Holland." Mr. de Villiers is a prominent member of the British Museum staff, and previous to his visit to S. Ronan's had been touring in Holland, where he lectured before the Queen and Royal Family, the Universities, and various other learned institutions. It was natural therefore that we looked forward to this evening with considerable eagerness, and we were not disappointed except in one respect, and that was not Mr. de Villiers' fault. The wretched light from the lantern completely spoilt many of what were obviously very beautiful slides. The lecturer, however, did not seem in the least put out, and beyond remarking that some of the slides were nice if only they could be seen, went on quite imperturbably with his subject. Though in parts, rather above the heads of some of the more youthful

members, to most of us the lecture was in every way most interesting, and it was in any case a very kind action on the part of such a busy man to take the trouble to come down to S. Ronan's for this purpose.

The third and last Lecture, by the Rev. G. Remfrey Brookes, was entitled—"With a Camera in Switzerland," and was in a sense the greatest success of the lot. It undoubtedly appealed very much more to the boys than any other lecture which has been delivered at S. Ronan's, and as far as those older ones present were concerned, though it may not have been more interesting than the one on "Holland," it certainly was quite as much so. The fact that the lantern was much more powerful too rendered the whole thing more attractive. We were all of us pleased to see Mr. Brookes, and as the father of one of our boys he was doubly welcome. Next year he has promised to come and lecture to us on "Italy." When, as in his case the slides are the lecturer's own work, and his views the result of his own travels, the subject is always much more interesting, and our only regret is that we shall have to wait a whole year before listening to him again.

### A few Genuine Howlers.

*As perpetrated at S. Ronan's in a General Paper.*

- 1.—What is a Leper's Squint?—Answer : All Lepers squint.
- 2.—England's time goes by Green age.
- 3.—Chivalry is a regiment.
- 4.—The feudal system was a bell which used to make everybody put their fires out.
- 5.—Graham White is an eroplayn.
- 6.—"Herts" stands for heretics.
- 7.—The "King's Address," is His Majesty King George of England Ireland Scotland and Walse, Buckingham Palace, London.
- 8.—Trafalgar Square is where an important battle was fought.
- 9.—Covent Gardens a lunatic asilon.
- 10.—Chatham : where all trains stop.

- 11.—Henry VIII was King of and had eight wives.  
 12.—For what is Chatham famous?—Answer : For railways.  
 13.—Graham White aviator.  
 14.—A Jesuit is a wicked woman (meaning Jezebel).  
 N.B.—It is perhaps unnecessary to state that the above need not be attributed to the Upper Classes of the School.
- 

## Cricket Prospects.

As to the Cricket prospects it is rather difficult to speak at present. There is no possibility of the team being up to the standard of the football eleven, but whether we shall turn out stronger than at present seems likely, remains to be seen.

It frequently occurs that material which at one time seems rather poor eventually trains into very good stuff. We ought, at any rate, to have several people capable of making a lot of runs. Everything will depend upon how the bowling pans out.

---

## The Football Season.

As this matter was fully dealt with last term, or in our last issue, it will be unnecessary to do more now than merely give the characters of the eleven.

It is unlikely that S. Ronan's ever possessed anything like such a good side. Certainly none of the schools in this part of the world or at Brighton were able to extend us at any time.

During this term we have been amusing ourselves with a certain amount of Rugby. Only time will show if we are destined to shine at that game as much as at the other.

### CHARACTERS.

A. M. G. COBBOLD (Captain).—Quite the best forward S. Ronan's has ever had ; possesses perfect control of the ball, is a clever dribbler, passes with precision and is a very fair shot.

- A. LATHAM-BROWN.—A very good and sound half back ; strong in his tackling and accurate in his passing ; will be captain next year.
- G. T. W. HORNE.—A very fine and most promising back ; a good kick with either foot, a clever tackler, and fast and dashing.
- J. S. T. MANSELL.—A very energetic and sturdy half ; quick in his movements and always works hard.
- H. M. MORRIS.—A forward of the most promising type ; a fast and good shot and a clever dribbler.
- G. H. COLDHAM.—A very sound goalkeeper with a thorough knowledge of the game ; can also play with success out of goal.
- N. G. HARRIS.—A most improved player this season ; good with his head and a useful tackler ; a very fair kick with either foot.
- K. G. MALCOLMSON.—A useful goalkeeper, if he can learn to be more accurate in his kicking ; should also turn into a good back.
- P. A. S. HADLEY.—Though somewhat uncertain, is quite young, and shows considerable promise ; possesses plenty of pace.
- J. F. B. DELAP.—A very useful outside right ; is fairly fast, centres well, and uses his head in passing.
- E. H. D. GRIMLEY.—Another promising player ; strong and fairly fast, with good tackling powers ; his passing is accurate.
- R. H. de M. LEATHES.—Has played on many occasions in the absence of someone else, and shows considerable promise.
- 

### The Cake Match.

A. M. G. COBBOLD'S XI. *v.* A. LATHAM-BROWN'S XI.

This match produced by far the most exciting struggle of any we have witnessed in this historic series. Cobbold's Eleven at one time appeared to be easy winners, and were three goals

ahead. Nothing daunted, the other side set about their business, and Morris, mi., playing with great dash, succeeded in bringing the scores level, mainly through his own efforts. Cobbold scored again in the last five minutes, and gave his side the victory by five goals to four. Both teams played with ceaseless energy and dash from start to finish. On the winning side, Whinney was in excellent form in goal and saved many good shots. He has learnt to throw himself full length, which is the last acquired, and most important attribute of a good goal-keeper. Mills, mi., and Harris were very safe and steady at full-back. During the first half the latter and Grimley were too much for Morris, but as already mentioned, after the interval the latter managed to break through on various occasions. Of the forwards on the other side, Cobbold himself was of course the pick, but Delap, ma., showed excellent form at outside-right, and made many good runs. On the other side, Coldham brought off some brilliant saves in the first half, but though doing quite sound work afterwards, he might have saved one of the goals which he misjudged. Malcolmson and Chapman played right at the top of their form, and had every reason to be satisfied with themselves. Latham-Brown, needless to say, was in excellent form till he slightly damaged his foot. During the whole of the first half he completely held Cobbold. Finally, the game was played on both sides in the right sporting spirit, and hard knocks were given and taken with thorough good feeling.

---

#### S. RONAN'S *v.* SOUTHEY HALL.

This match, on our own ground, produced a fairly good game, which was won however, fairly easily by S. Ronan's, the score being seven love in our favour. Had it not been for some most brilliant goal-keeping on the part of the Southey Hall custodian, the score would have been very much larger. As it was our opponents never looked like getting a goal.

S. RONAN'S *v.* THE WICK (BRIGHTON).

We journeyed over to Brighton in order to play this School. as they also had an unbeaten record. At the end of the match their record was not intact, but ours still was. It cannot be said, however, that our team displayed anything like their best form, for though winning by two goals to one they ought to have scored many more times as we were very much superior at all points of the game. Cobbold, however, had an off-day, and Morrison, mi, though in splendid form during the first half, went clean off in the second. There is no doubt that if the team had been playing at their best the score would have been seven or eight love. It is, however, satisfactory to have beaten the best School team in Brighton.

---

S. RONAN'S *v.* SOUTHEY HALL.

The return match, on our opponent's ground, provided us with a still easier victory, the score being eleven love in our favour. Morris and Delap were in splendid form on the right wing, but Cobbold, though he did many good things, was prevented by a strain from showing his best form. All the defence were good, Harris and Latham-Browne being the pick.

---

S. RONAN'S *v.* MALVERN HOUSE.

Our opponents had several people away, and consequently our victory was of the easiest possible description, the score being twenty love.

---

S. RONAN'S *v.* ROTTINGDEAN (RUGBY).

This match was played on Wednesday, March 22nd. It was a bold move on our part to tackle Rottingdean, who have played Rugby regularly for six years, whereas we had played exactly eight games in our lives ; but nevertheless, the game was a splendid one

from every point of view. Indeed, had it not been for one abnormally large and well built boy who scored all their tries, the match would without doubt have ended in our favour. As it was we gave them a rare fright, and scored eleven points during the first forty minutes without reply. At that stage, however, the great efforts which the eleven had put forth began to tell their tale, and Rottingdean, helped by their obviously superior knowledge of the game, and the superior bulk of the above-mentioned three quarter, scored four or five times, making the result a win for them by twenty-one points to eleven. We have not the smallest doubt that next season the result will be the other way round.

---

#### S. RONAN'S *v.* ROTTINGDEAN (RUGBY).

The return match with Rottingdean, on their own ground, provided a more easy victory for them. The whole of their scoring, however, both as regards tries and place kicks, was done through the agency of their one big boy, without whom there is no doubt that the match would have been an extremely even one. As it was, the game was well-contested, but whenever this young Hercules got hold of the ball he rushed through everything like a battering ram. It was nevertheless an excellent game played in a good sporting spirit.

---

#### S. RONAN'S *v.* WINDLESHAM HOUSE (RUGBY).

This game, which was played on Friday, March 31st, ended in a win for us by twenty points to three. Our opponents had also started Rugby for the first time this term, and as they have almost exactly the same number of boys in the School as we have the conditions were as even as possible. Nearly all the damage was done during the first half, as we scored no fewer than seventeen points, quite the best piece of work being Cobbold's try. He ran through from the half-way line and dodged several opponents on the way. During the second half each side scored once. The game was not such an interesting one to watch as the two former,

each side being somewhat prone to infringe the rules. Still, considering that neither School had even thought of Rugby till this term, the display was by no means a bad one, and though of course we have no intention of adopting the Rugby game except during the Easter term, the progress already made augurs well for the future.

---

#### S. RONAN'S *v.* WINDLESHAM HOUSE (Return).

Owing to snow, this match did not take place at S. Ronan's on April 5. It must have been about 2.45, when Cobbold, not having won the toss, missed his effort at kick off. Windlesham House, who did not appear too happy on a level football field, failed to pack smartly, with the natural result that they can hardly be said to have pressed S. Ronan's during the early stages of the game. After a spell of negative play, Coldham, who was apparently unmarked out of touch, refused all requests to pass the ball, and didn't score quite behind the posts. If Delap, mi., had been entrusted with the kick, a goal might have been scored. Windlesham House again failed to fill the picture, and if Cobbold had dropped the ball over the crossbar, an additional four points would have accrued to the home side. Nothing more of any importance occurred before the end of the game. Perhaps we ought to say candidly that Hadley collared no one, and that neither of the halves gave their three-quarters a single chance.

## Editorial.

ONE of the great advantages of a School Magazine is that the fortunate Editor has not to go searching for a subject, but can write much the same thing over and over again. There is an everlasting similarity, which though dull to some, for which we apologise, is a very real benefit to him. For instance, as in succeeding past terms, we once more have to acknowledge gratefully the fact that the three months have passed without illness ; once more we have had to bid farewell and good luck to some of our members ; they may rest assured that we shall not forget them. For them, in the rush and excitement of a new life, certain things will fade away and be forgotten ; it is for us to remember all they have done, the little actions which did good, the little proofs of nice feeling and willing co-operation. One thing, however, we know, and it is this ; however much they may forget, whatever the incidents and interests of their life, there will always be a little warm spot kept in their affections for the old School which started them. As Old Boys they will be always welcome, and as companions and friends we shall often meet in the not far distant advent of the Old Boys' Club.

Turning to the School, we find much cause for satisfaction. All the leaving boys have passed into their public schools as high as, and in some cases higher than we had hoped. The standard at which we have been aiming, namely for boys in the Shell Class to be able to pass the Common Entrance, is not far from fulfilment, and on the whole keenness and interest are being shewn in the work.

In the matter of games, we have, during the past year, kept up our reputation of being second to none ; but lest any should think that it is only in games we claim this distinction, let it be said that our ambition and intention is to be second to none in all things that are worth doing well ; and if there still remain some such things in which that position is not ours, it shall be our business to see to it without delay.

## School Notes.

The next Term will commence on Friday, September 22nd, on which day all boys travelling through London are expected to catch the 3.27 train at Victoria. A saloon will be attached to this train and a master will be in charge.

\* \* \*

The following boys are leaving us this term :—

A. M. G. Cobbold.

K. G. Malcolmson.

G. D. Morris

E. A. Barclay-Smith.

\* \* \*

Cobbold, who was head prefect last term, proceeds to Westminster, having successfully passed the Common Entrance examination during the course of the past term. Malcolmson has gratified everyone by taking quite a high place at Charterhouse. Morris will join Goodall and Coldham at Repton, where we hope he may be equally successful; and Barclay-Smith has gained much glory by winning a Scholarship both at Malvern and Westminster, the latter an £80 Kings' Scholarship which he has therefore accepted.

\* \* \*

For all the above we can only re-iterate what has been stated so many times in this Magazine, that they one and all take with them our heartiest good wishes. In every single way their work and influence here has been entirely satisfactory, and if their life at the Public Schools continues on the same lines as at S. Ronan's they will always carry with them the respect and affection of all they know.

\* \* \*

About half the School travelled to town for the purpose of seeing the Coronation, and the rest, who formed a fairly formidable party under the guidance of Mr. Vinter, went to

Portsmouth, where they spent a day seeing the fleet that was assembled there.

We were on the whole quite fortunate in catching no infectious complaint on these occasions.

\* \* \*

May we repeat our request which appeared in the last issue of the Magazine, that parents should be very careful with their sons during the last three weeks of the holidays. We are very grateful for the kindness and care which has been taken in this matter in the past, but we are sure no one will object to another reminder, as a good start in a term means a great deal.

\* \* \*

The past term has once more been entirely satisfactory from the point of view of health. While we are on this subject, however, may we, without any wish to be fussy, call the parents' attention to the fact that there is an ancient School rule made many years ago that no boy is allowed to receive hampers (or grub) at any time except on his birthday.

\* \* \*

We don't wish to make the line too hard and fast. No objection has been or would be offered to very occasional small packets of biscuits or fruit. During the last few terms, however, the practice of sending sweets and cakes, etc., has grown to such an extent that it is time attention was drawn to it.

\* \* \*

Everyone will learn with regret that at the end of last term the Rev. J. H. Simpson found it necessary to resign his post as Chaplain ; he has no immediate plans, but intends ultimately to take up other work ; whatever the nature of that work may be, he will carry with him all wishes for happiness and good fortune from those at S. Ronan's, who have, during the past two years, had the pleasure of hearing him in the Chapel and knowing him in every-day life.

To fill the above position, we have had the good fortune to procure the services of the Rev. L. Whately Smith, M.A., of Caius College, Cambridge. Mr. Smith was contemporary with Mr. Harris at the University, and for some time past has been Chaplain at Dover College, which position he has given up in order to join the staff at S. Ronan's. Much though we regret Mr. Simpson's loss, we know that we should have to go far before finding a more suitable successor.

\* \* \*

We have to thank Mrs. Montague Goodall for coming down to give away the prizes, including the Goodall Cup, at the end of term. A short account will be found in another column.

\* \* \*

Next term we intend starting a Choir in the Chapel ; it will, of course, be on a small scale, but we feel sure the step will meet with approval.

---

## Lawn Tennis.

We had to content ourselves with two matches at lawn tennis this year, as Miss Fisher's School—one of our most doughty opponents—has unfortunately been rendered *hors de combat* by an attack of the mumps.

The two games in question were against Whykeham House, and in each of these S. Ronan's proved successful.

The scores in the first match were as follows :—

H. V. T. Mills and A. M. G. Cobbold, 6-2, 6-0, 6-4. Won by 3 sets to love.

G. T. W. Horne and N. G. Harris, 6-3, 6-3, 6-4. Won by 3 sets to love.

P. A. S. Hadley and W. N. Dutton, 7-5, 6-3, 6-4. Won by 3 sets to love.

In the return match our scores were :—

H. V. T. Mills and A. M. G. Cobbold, 6-2, 6-4, 5-7. Won by 2 sets to 1.

G. T. W. Horne and W. N. Duttson, 6-2, 6-0, 7-5. Won by 3 sets to 0.

N. G. Harris and P. A. S. Hadley, 7-5, 10-8. Won by 2 sets to 0.

---

## Swimming.

For the first time on record swimming races were inaugurated this term at S. Ronan's. The suggestion came in the first place from Montague Goodall, Esq., who most generously gave five guineas towards a prize fund. The Corporation Baths were hired for the occasion for the afternoon, and on the whole a most successful meeting was enjoyed.

The results of the various races were as follows :—

50 yds. senior. 1, Malcolmson ; 2, Thrupp, ma.

75 yds. junior. 1, Havers, ma. ; 2, Miller ; 3, Coode-Adams.

135 yds. open. 1, Malcolmson ; 2, Havers, ma. ; 3, Thrupp, ma.

The prizes all of which consisted of silver cups were presented on the last day of term.

---

## Old Boys' Column.

Our first congratulations must be to M. D. Forbes (Cheltenham and Caius), who has just achieved the signal distinction of a Double First in the Historical Tripos. Such an honour is very rare indeed in this particular examination. Though a first class is not so unusual in the second part, it is a great rarity in the first.

We hear also with pleasure that N. F. Maltby, who has just left Wellington, has been elected to an Indian Cadetship.

F. W. Pink once more did well in the Westminster Sports, winning the Open Long Jump with over 18 ft., and coming in a good second in the Quarter Mile.

Our congratulations are also due to F. R. C. Cobbold on gaining his place in the First Eleven at Westminster. He is full young to have achieved this distinction ; he and J. M. de Slubicki were quite the two best men in their team.

The latter has also succeeded in passing the "Little Go," and goes on to Pembroke College next October, a College which will then be honoured by the presence of three S. Ronan's boys, and we understand several more are following on.

Congratulations to J. S. T. Mansell (Wellington) on carrying off the Mathematical Prize at the end of his first term.

H. M. Goodall (Repton) continues to progress up the School as fast as he is allowed ; his House Master gives his work the highest praise.

G. H. Coldham (Repton) has also come out first in his form at the end of his first term, and will also get a remove ; this is a very creditable performance, as he was placed quite high up in the first place.

W. E. Chetwynd-Stapylton, B. G. Chapman, G. H. Jones-Mitton, are all mentioned in their School Magazines as doing well in Cricket or Athletics at Malvern and Harrow respectively.

The following Old Boys visited us last term, apart from the Old Boys' Match :—H. G. Hutchinson and L. H. Hughes (Lancing) ; J. M. de Slubicki, F. R. C. Cobbold and P. V. L. Kelham (Westminster), R. Nourse and Leo Nourse.

Our best congratulations to L. C. Heygate (Radley) on passing into the R. M. C., Sandhurst.

---

### Arundel Day.

This great event took place on Thursday, July 13th. Various forecasts and prophecies had been made about the actual date for some weeks before, but when the time actually arrived it was found that practically everyone in the School was badly out in his calculations.

In accordance with the general run of the weather this term the day was a most perfect one, and we set out in the usual four brakes a small army of eighty-five, full of spirits and of the intention to enjoy ourselves to the utmost of our ability.

We arrived in the Park at about 11.30, and an immediate rush was made on the "Grub Shop" at the Tower, where the caterer was apparently so overwhelmed by the unexpected demand on his wares that he lost both time and temper and used, we are told, language more forcible than polite.

In spite of the good work done in the eating line during the ensuing hour, there was no sign of abatement when luncheon was announced at one o'clock. Everyone set about his work in the most serious and conscientious manner. Afterwards there was a general scattering of the Clans, most going out on scouting parties and others to wage baleful warfare.

After tea, which was taken at five o'clock, we had our customary game of rounders, a pastime which is found to be excellent for the re-establishment of ruffled tempers and the digestion of too hastily swallowed food.

At half-past seven, having collected our goods and chattels, we set forth on the homeward journey to the accompaniment of much singing of a more or less harmonious character, and arrived at S. Ronan's thoroughly tired out and quite ready for bed at about nine o'clock.

**Prizes.**

Mrs. Goodall kindly came down on the last day to give away the prizes, including the "Goodall" Cup and those presented for the Swimming Races. The following list will show the various winners :—

## SCHOLARSHIP CLASS.

*Classics*.—L. M. Goodall.

*Mathematics*.—E. A. Barclay-Smith.

*Combined Subjects*.—L. M. Goodall.

## CLASS I.A.

*Classics.*—Smith.*Mathematics.*—Malcolmson.*Combined Subjects.*—Cameron.

## SHELL CLASS.

*Classics.*—Delap, ma.*Mathematics.*—Dutton.*Combined Subjects.*—Tudor Craig.

## CLASS I.B.

*Classics.*—Burd.*Mathematics.*—Abraham.*Combined Subjects.*—Garrett, ma.

## CLASS II.

*Classics.*—Phipps.*Combined Subjects.*—Havers, mis.

## CLASS III.

*Classics.*—Maidlow.*Combined Subjects.*—Horne, mi.

## "GOODALL" CUP AND 1ST ALL-ROUND PRIZE.

Won by Horne, ma.

## SECOND ALL-ROUND PRIZE.—Won by Malcolmson.

## THIRD ALL-ROUND PRIZE.—Won by Harris.

## DRAWING.

*Freehand.*—H. H. Fisher.*Geometrical.*—H. C. D. Whinney.

## CATECHISM.

*Division I.*—Morris, mi.*Division II.*—Whinney.*Division IIa.*—Delap, mi.*Division III.*—Havers, mis.*Division IV.*—Hoyle, mi.

N.B.—If there is any inaccuracy, we must plead excuse on the ground that it is written entirely from memory, the proper list at this moment being hundreds of miles away. We shall be glad to correct any errors in the next number of the Magazine; there are, however, only two points about which we are doubtful.

## Notice to Parents.

As there was some doubt last term in certain cases as to whether boys should take their Suunday Collections from their own money or have it put down in the Account, we should be very much obliged if parents would kindly let us know what they wish or else make it clear to their sons.

## The Chapel.

The following is a list of the Collections made in the Chapel during the past term :—

			£	s.	d.

## Music Report.

BROOKES.—Excellent.

DUTTON.—Excellent, and is improving very much with his reading at sight.

MORRIS, mi.—Has worked harder the latter half of this term. I think he is beginning to realize that he *can* do well if he only tries a bit more.

WALLIS.—A very good and correct worker.

MORRIS, ma.—Always did abhor scales, but he has done his best with his pieces.

THRUPP, mi.—I have still hopes of him ; I believe he is waking up.

VOGAL.—Is working very much better than he did at first. He should do well, and I hope he will try his very best.

WHINNEY.—Is still at the head of scale list ; a careful worker.

BURD.—Is uncertain in his work, he takes little fits and starts of doing really very well indeed, and then he drops off a bit. He is not nearly so bad in this as he was, and I am very much hoping he will be steadier in his work, for I am quite sure he is musical.

#### PRIZES.

Brookes and Duttson equal for prizes.

#### SCALE LIST.

1.	Duttson }		2.	Wallis }
	Brookes }			Morris, mi. }
	Whinney }			

This Term I am only naming these first boys.

H. S.

### Athletic Sports.

These were held on Saturday, May 20th, and proved an all-round success. The day, though rather cold, was fine, and quite a large number of people were present. The standard of the various performances was high and the competition keen ; Morris mi. was the best athlete, but he was followed closely by Cobbold and Malcolmson, while Hadley and Harris both did some good things. It must be a long time since such a pretty quartette of hurdlers has been seen at S. Ronan's. In the junior events Brookes was in a class by himself in the flat events, and Whinney was easily the best high jumper. Of the others, Delap, mi., Churton-Taylor, Coode-Adams and Barker, mi., showed promise. Probably throughout the School the competitors were more evenly matched than has been the case for some time. Dr. Gow, the

Headmaster of Westminster, distributed the prizes, and in a short but peculiarly well-worded speech, congratulated us all on the appearance of the School and the evident signs of good feeling and sportsmanlike spirit among the boys. He was particularly glad to see so many parents present, as showing the interest they felt in S. Ronan's.

## RESULTS.

## 100 YARDS (SENIOR).

1. Morris, mi. 2. Malcolmson. Time,  $13\frac{1}{5}$  sec. An excellent race. Morris got away badly and had a wind against him, or the time would have been better.

## 100 YARDS (JUNIOR).

1. Brookes. 2. Delap, mi. Time,  $13\frac{2}{5}$  sec. Brookes won with ease in fast time, a junior record in fact. Delap, mi., ran very well.

## HIGH JUMP (SENIOR).

1. Morris, mi. 2. Cobbold. Some very good jumping was done in this event. Height, 4ft.  $1\frac{1}{2}$  in.

## 100 YARDS (UNDER 10).

1. Phipps. 2. Hoyle, mi. Time, 16 sec. Phipps and Hoyle both ran very well.

## HURDLES.

1. Cobbold. 2. Morris, mi. Time,  $17\frac{3}{5}$  sec. A beautiful race in record time. All four took the hurdles in good style, and three yards covered the lot.

## 220 YARDS (UNDER 10).

1. Phipps. 2. Nourse. Phipps was again successful, but Nourse managed to secure second place.

## LONG JUMP (SENIOR).

1. Cobbold. 2. Morris, mi. Distance, 13 ft.  $1\frac{1}{2}$  in. The jumping was poor, owing probably to a heavy wind against the competitors.

## LONG JUMP (JUNIOR).

1. Brookes. 2. Cameron. Distance, 12 ft. A moderate jump.

## QUARTER-MILE (SENIOR).

1. Morris, mi. 2. Malcolmson. Time, 70 sec. A very good time. Morris led throughout, but Malcolmson was well chased home by Hadley, who showed much promise and good judgment.

## HIGH JUMP (JUNIOR).

1. Whinney. 2. Brookes. Height, 3 ft. 9 in. A very useful jump for juniors, though the winner has done better in practice.

## 300 YARDS (JUNIOR).

1. Brookes. 2. Churton-Taylor. Time, 48 sec. Brookes won easily in good time; Churton-Taylor ran a very plucky race.

## CRICKET BALL.

1. Malcolmson. 2. Latham-Brown. Distance, 61 yards. Malcolmson has thrown better, but no doubt the wind stopped him a good deal; as it was, the throw was quite a good one.

## 660 YARDS (OPEN).

1. Malcolmson. 2. Morris, ma. Morris led most of the way, but Malcolmson had more left and won up the straight in good time. Time, 2 mins.

## OBSTACLE RACE (JUNIOR).

1. Delap, mi. 2. Churton-Taylor.

## OBSTACLE RACE (SENIOR).

1. Leathes. 2. Morris, mi.

## THREE-LEGGED RACE.

1. Whinney and Thrupp, ma. 2. Horne and Barker, mi.

## RELAY RACE.

1. Morris' team.

## CONSOLATION HANDICAP.

1. Smith. 2. Byass.

## SISTERS' RACE.

1. Miss Edmonds. 2. Miss V. Edmonds.

## STRANGERS' RACE (UNDER 8).

1. Master Hinds.
2. Master Helme.

## TUG OF WAR.

Malcolmson's VI. beat Latham-Brown's VI.

It is impossible to give an accurate list of the prizes, but they were for the most part silver cups, and we would like particularly to thank the following for their kindness and generosity in giving prizes :—Mrs. H. G. Morris, Mr. and Mrs. C. A. Harris, Mr. and Mrs. Newcombe, Frank Hinds, Esq., M.D., C. T. Verry, Esq., R. S. Vinter, Esq.

---

## A Day at Portsmouth.

A good number of our community were lucky enough to be able to witness the Coronation in London. Those less fortunate made the best of things at S. Ronan's. On the Thursday, a party of 40 went from Worthing to Portsmouth to see the great fleet assembled to do honour to our King. The weather was doubtful, indeed it rained nearly the whole way to Portsmouth, but fortunately it cleared and allowed us to walk to the Clarence Pier in the dry. We soon got on board and started for our 2 hours' trip. The wind was boisterous and some of us wondered whether the effort would prove too much for our internal economy. It was impossible to keep hats on, so strong was the wind. However, we got over to Ryde about 12 o'clock. Suddenly all the guns in the neighbourhood and on the ships went off in one impressive salute, and we knew that another King of England had been crowned. It was a moment not to be forgotten by any of us. After this we started down the lines of mighty ships. The Dreadnoughts were awe-inspiring monsters, and the smaller craft such as Destroyers etc., were much scrutinized. Some photographs were taken, but the light was poor and though a few good pictures were obtained, many were failures. The foreign vessels were most interesting, the Chinese and Austrian, and the

American with the curious wire masts being those most noticed. By this time some of us were getting terribly hungry, and matters had to be helped by attacking chocolate in various forms. We arrived back at the pier about 2 o'clock, and then the rain began again. We had, however, only a few steps to go to the Hotel, where we were ushered into a large room and did justice to a most excellent meal. Following this we boarded two trams, as the rain was coming down now in torrents, and arrived at the station. Here we had to wait for some little while, but at last our train came in, which was fortunately a fast one, and we soon reached Worthing again after a most successful and instructive day's outing, having for once really scored off the weather.

---

## The Cricket Season.

Although our record reads well on paper, we confess to a certain feeling of disappointment with regard to this year's team. They might have been so very good and at times they were; on one or two occasions, however, they crumpled up in very weak fashion. Paradoxical though it may seem, the batting was at once the strong and the weak point of the team. When things were going right and the players were in good form, it would have been difficult to find a boys' team more attractive to watch. On the other hand no one mastered what is perhaps the most important point in batting, namely, that not only is it essential not to draw away, but one must get well over the bat for everyone of the back strokes; the failure to do this accounted in every case for our bad performances. The bowling was quite good; the catching and fielding excellent.

## Characters of the Eleven.

H. M. MORRIS, (Capt). Good all round; most promising bat, but still spoils it all by drawing away, which prevents him from getting set; good bowler, with a swerve, and excellent field and catch.

- K. G. MALCOLMSON. Fine hitting powers ; will be good if he learns to stand up, not otherwise ; good field and catch, and now promises well as a bowler.
- E. H. D. GRIMLEY. Good catch and field ; bowling fair at present ; has a bad flourish in his batting ; if he loses it, will be very good indeed : if not, will never be any use at all.
- A. M. G. COBBOLD. One of the two most improved bats on the side ; apt to drop the right knee too much ; excellent catch and field ; bowls a bit.
- A. LATHAM-BROWN. Has improved his batting a lot, but is inclined to spoon up catches when trying to hit too much ; very sound field and catch.
- G. T. W. HORNE. The best catch on the side this year ; batting quite sound, tho' not attractive in style ; he is too stiff ; may be a useful bowler.
- G. D. MORRIS. Very promising left-hand bowler, with good length ; hits a bit ; fair field, bad catch.
- N. G. HARRIS. The other most improved bat on the side ; also good in the field.
- H. C. D. WHINNEY. Will be a useful bat when he learns to stand up ; very fair wicket-keeper.
- J. M. COLDHAM. Promising bat for his age ; good in the field.
- J. F. B. DELAP. Very fair in the field ; poor bat.
- THE SECOND XI. Contains most excellent material ; Byass, Cameron and Abraham are all future cricketers of a high order. Thrupp is a useful bowler, and if only he would hit straight and get a better field, would be a good all-round player. Leathes and Coode-Adams, are also players of distinct promise, while Boyd, ma., Duttson, and Havers, ma. should all do well.

## S. RONAN'S v. WINDLESHAM HOUSE.

Played May 27th. This, the first match of the season, resulted in quite a good performance on our part. The game took place on our opponents' ground, and we proved successful by 72 runs. Having won the toss, S. Ronan's went in to bat and declared with 176 for nine wickets. Malcolmson played quite the best cricket, hitting very well in his innings of 55, and other good scores were made by H. M. Morris, G. D. Morris, Cobbold and Horne. When our opponents went in to bat they amassed 104 against some very fair bowling and fielding.

A. M. G. Cobbold	4	1	25	3

S. RONAN'S *v.* WOLLESLEY HOUSE.

Wednesday, May 31st. Though successful by 57 runs S. Ronan's did not show such good batting in this match as had been the case in the previous one. Morris, ma., hit well, and Malcolmson and Horne also played good cricket, but no one else did anything out of the way. Our opponents could do nothing against the bowling of the two Morris' which was extremely good.

## S. RONAN'S v. DORSET HOUSE.

Played June 7th. Apart from our bowling and fielding, which was extremely good, we put up quite a poor show in this match with the result that we were beaten by 17 runs. The cause of our downfall was a lob bowler, which, strange to relate, is a phenomenon rarely met with in private school cricket, and stranger still this boy knew how to bowl them quite well, with the result that he was one too many for our best batsmen, though the

tail very nearly succeeded in pulling off the match. Our opponents however were a very good side, and taken all round quite deserved their win.

## ST. RONAN'S (UNDER 13) v. MOWDEN SCHOOL 1ST. XI.

Played Saturday, June 10th. This match resulted in an easy victory for S. Ronan's. Grimley batted extremely well for his 34, showing very pretty cricket all round the wicket, and valuable help was also rendered by Mills, mi. Thrupp and

Grimley both did damage in the bowling line when Mowden went in to bat.

S. RONAN'S *v.* SEAFORD HOUSE.

Wednesday, June 14th. The School showed good form in this match, which they won by sixty runs, though the outstanding feature by far was the excellent innings of 56 not out by H. M. Morris, who played quite the best cricket he has done this year, and in addition followed it up by an equally creditable bowling

performance. Our fielding, however, was not quite up to its usual standard.

S. RONAN'S *v.* WINDLESHAM HOUSE.

Played June 15th. After our easy victory in the first match at Hove it came as a considerable surprise to be beaten on our own ground by 22 runs. This result was largely due to poor batting on our part, the only people to do themselves justice in any way being Morris, ma, Morris, mi., Horne, and Latham-Brown.

## S. RONAN'S v. SOUTHEY HALL.

Played Saturday, June 17th. This match produced rather a good performance on our part, as Southey Hall possessed a really good fast bowler, and to make 129 runs against him was a very sound effort. Latham-Brown and Cobbold who were chiefly concerned both played excellent cricket, and Harris and Malcolmson made useful little scores. The opposing side could not do much with Morris, ma., who bowled exceedingly well.

## S. RONAN'S v. WYKEHAM HOUSE.

Played June 24th. A sticky wicket caused the scoring to rule very low in this match, but S. Ronan's, after being only eleven runs ahead in the first innings, finally won fairly comfortably by five wickets. The best batting was done by Cobbold, Harris, Morris, ma. and Morris, mi., the latter indeed was playing very pretty cricket in the second innings.

## S. RONAN'S v. DORSET HOUSE.

Played June 28th. This match, which resulted in a heavy defeat for us by 106 runs, was noteworthy in various ways. In the first place, Dorset House are the first School to beat us twice

in one season for a great many years. Secondly, their Captain, Goff, is the only person, as far as can be ascertained, who has ever scored one hundred against us; and thirdly, it is an interesting fact that Dorset House should have beaten us so soundly twice at cricket, while we only last term inflicted such overwhelming defeats on them at football. During the long outing the S. Ronan's fielding and bowling was remarkably good, but on going in to bat after a fair start our batting broke down completely, only Morris, ma. showing any ability to cope with the bowling. Latham-Brown kept wicket brilliantly.

## S. RONAN'S (UNDER 13) v. MOWDEN SCHOOL FIRST XI.

Played July 4th. This game produced an excellent contest. It appeared quite likely at one time that we should be beaten. Our opponents made 69, Grimley bowling extremely well and taking eight wickets. When S. Ronan's went into bat they lost no fewer than seven wickets for 47 runs, but Leathes and Cameron made a most valuable stand at a critical moment and pulled the fortunes of the game round ; Byass also batted nicely.

## FATHERS v. SONS.

Played July 8th. The third meeting of this historic series took place in weather of the most brilliant description. Hitherto the fathers had suffered defeat twice, but on this occasion they came down in great strength and administered a very wholesome beating to their sons. There were in the fathers' team several regular cricketers, and many who obviously not so very long ago had been equally good. Although the boys were so heavily beaten they nevertheless did not lose their form, and at the end of the day they were generally admitted to be a team of cricketers at least. Harris showed excellent batting form, and of the rest, Cobbold and Horne both did useful work. Morris, ma., bowled extremely well, and Mr. Vogel's wicket-keeping was one of the features of the day.

## S. RONAN'S v. THE OLD BOYS.

This match was played on July 26th, and after a capital game resulted in the Old Boys scoring what was, if not their first win in the history of the school, their first within the memory of the oldest inhabitant. Mr. Harris won the toss, and sent our opponents in. A good start was made by Goodall and Slubicki, and runs came quickly till the former was capitally caught on the boundary by Horne. Nourse came next and was rather rude to the bowling, while Slubicki played excellent cricket. This pair took the score to 71, when Nourse was clean bowled by Cobbold with a very carefully thought out ball, which bounced more than once, breaking a different way each time, and eventually ended up as a shooter. Slubicki continued to play well till he was finely caught by Mr. Woodruff at deep extra cover. Wallis also showed very good form, and Raymond Barker's defence was good. Morris, mi. finished off their innings with a nice little bit of bowling, helped by Grimley, who was unfraternal enough to catch out his elder brother.

Our start was not very grand, but C. W. G. Grimley and Slubicki, both were bowling well, and we had 7 out for 33. Of these Morris, mi., alone played up to reputation, though N. G. Harris was unlucky in being run out. The brothers Grimley again clashed. Then the "grown ups" came together, and with Mr. Harris in an aggressive mood, the score was taken to 124, when Mr. Newcombe was well caught at point. Mr. Woodruff came next and played with confidence, and we looked likely winners when Mr. Harris was nicely taken at first slip off Wallis' bowling. Latham-Brown whipped in, but the fates were against us and he was caught and bowled without scoring, which left us beaten by a run. The Old Boys deserved their win, and shewed very good form all round.

## OLD BOYS.

C. Goodhall, c Horne, b G. D. Morris	...	16
J. M. de Slubioki, c Woodruff, b Newcombe	...	52
L. F. Nourse, b Cobbold	...	26
D. B. Wallis, c and b Newcombe	...	32
C. L. Raymond-Barker, b S. S. Harris	...	19
J. Tanner, c Woodruff, b Newcombe	...	3
C. H. Vizard, c Malcolmson, b S. S. Harris	...	0
P. V. L. Kelham, not out	...	14
C. W. G. Grimley, c Grimley, b H. M. Morris	...	7
J. Coldham, c and b H. M. Morris	...	0
H. C. D. Whinney, b H. M. Morris	...	0
Extras	...	12
Total	...	181

## S. RONAN'S.

G. D. Morris, c Goodall, b Slubicki	...	4
