

S. Ronan's  
Magazine.

September, 1919.

## School Notes.

THE Editor presents his compliments to the readers of this Magazine and considers that it will be an excellent thing both for them and himself to dispense with the Editorial on this occasion; though why it should be called "Editorial" goodness knows, since the same person has the somewhat dubious pleasure of composing not only the Editorial, but also the comparatively insignificant balance of this Magazine. However that may be, out of the last twenty-nine Magazines, only one has been bereft of a leader, so it is high time, in the Editor's opinion, there was another similarly situated to bear it company. He is glad to know that this decision will have the wholehearted approval of the seventy literary gentlemen who at present honour the school with their presence. He thanks them for past support and criticism, so ungrudgingly given, and begs to remain their most devoted servant.

\* \* \*

Next term will start on Tuesday, September 23rd, on which date all boys coming through London are expected to catch the 3.40 p.m. train from Victoria to West Worthing, on which there will be reserved carriages. Mr. Harris and Mr. Vinter will be in charge. The term will probably end on Tuesday, December 16th.

\* \* \*

The following boys left S. Ronan's last term :--

R. J. H. Thomas (Wellington).

M. A. F. Mason (Wellington).

F. L. Harrow-Bunn (Repton).

A. C. Davidson-Houston (St. Edward's School, Oxford).

\* \* \*

Thomas did an exceptional performance in the Common Entrance Examination, actually coming out second out of 85 candidates for Wellington. Harrow-Bunn also did well at Repton, being placed seventh out of some 50 candidates; while Mason was 20th at Wellington, which, without being better than we had expected, was quite satisfactory. Davidson-Houston takes his examination at the beginning of next term.

\* \* \*

We lose all these boys with great regret. They have all of them done good work in the School, and have taken good positions both in Scholarship and in games. Thomas has had a task as head prefect which has not altogether been easy in every way, but he has done it well, and the others have backed him up in the right way.

*September, 1919.*

We have to thank the following for gifts of books to the Reading Room:—

C. M. Horne.  
A. H. E. Molson.  
D. McN. Graham.

\* \* \*

We are also very grateful to Mrs. Davidson-Houston for her promise to present a Challenge Cup for bowling on behalf of her two sons who have now left S. Ronan's. This will correspond to the Cup we already have for batting. Our best thanks are due too to Dr. Hinds for a monetary gift towards the Sports prizes, and also to two of the parents who wish to remain anonymous.

\* \* \*

Hearty though somewhat belated congratulations to Sir John Coode-Adams on his well-deserved Honour in the recent lists.

\* \* \*

The Shooting Competition, together with the Challenge Cup presented by Sir John Coode-Adams, was won by M. A. F. Mason, who was second last year. He won on this occasion fairly easily, and G. E. Langdon was runner up.

## The Term's Work.

SCHOLARSHIP CLASS.—It was very hard on Harrow-Bunn, who was actually 1st in the class, to lose so much of the term and consequently his place. It is possible, however, that Thomas might have beaten him in any case, as the latter did extremely well for Wellington; it is an entirely open point. Pike and Goggs did a remarkably good term's work; MacGregor, ma., was sound as usual; Osler, ma., was at times brilliant, at others sleepy, and the other three—of whom Montgomery tried hardest—were very fair without being exciting. Standard of work good.

I.A.—Work all-round was good, and as has been the case during the last two terms, they are above their usual standard. The Class as a whole was keen, but Smyth, Spens, Corcoran, and Schreiber were distinctly better than the rest in actual knowledge. Willis shews great promise; Soames and Saffery are lazy; the rest all work hard and have a good average amount of knowledge for their ages, Gordon-Walker rather above it, though he is weak on paper.

SHELL.—As usual, a good, keen class, which produced better Exam. results than we had expected. Exceptional promise is

shewn by Marples, Wethered, and Richardson; Stuart is well advanced, and the rest are of average standard, some more, some less, but all work and do their best.

I.B.—On the whole, hardly such a good class as last term, their chief faults being lack of steadiness and excess of high spirits. Dudley is very promising and a good worker; Croft on the whole did well, though he is not perfect; James, Price, and Head are keen workers, and Cowburn, ma., made a big improvement. Lancaster came out 5th on the strength of real excellence in English subjects, but he loses many marks in other subjects through a tendency to fool, and Havers though he is somewhat better than he was, is in the same box. Graham, ma's. work was not satisfactory, and Biddulph was most disappointing. It was very hard for Wigram, who is so keen, to lose the entire term, and with it chances of promotion and prizes.

CLASS II.—A good class, keen on all their work, and with several boys of distinct ability. At this early age it is hardly fair to judge in too great detail, so to all be the credit, but in particular to Gregson, mi., MacGregor, mi., Osler, mi., Swingler. Chetwynd-Stapylton and Goodfellow do not work as hard as the rest.

CLASS III.—Another very keen class, with Gordon-Walker, mi., and Gregson, mis., in the van as far as knowledge is concerned. Of the rest, all are hard workers, but Walsh, Eyre, and Boyd, at present shew most promise.

---

From the above it will be seen that the boys almost all put their backs into their work and are keen to get on; those who are consistently slack can be counted on the fingers of one hand.

## The School Order.

At the beginning of the term we decided to make the School Order dependent not on work only, but on general all-round keenness, influence and conduct as well. It has been found, however, quite impossible to carry this out in practice, much though we regret it. It would be easy to write down an order based on impression, but it would be leaving too much to chance, and we have just proved by experience that to draw up an order in which each heading has its quota of marks involves a labour of hours, and is in no way worth while. For instance, it took one hour to do the Scholarship Class alone. Therefore the scheme must be abandoned, and those who would have gone up must be content with knowing that they will be neither unnoticed nor forgotten when it comes to making Prefects, etc., while those who would have gone down, have something to be thankful for.

## THE SCHOOL ORDER.

The following was the Class Order at the end of the term based on the Term and Examinations Marks, and those marked with an asterisk will probably get their Remove :—

**Poem.**

The following poem seems to be worth publishing as it was written by a boy of 10 years. Though by no means perfect, it is in feeling and imagination a good production for a boy of that age, and there is real poetry in it. The lines were sent to Dr. Rouse, Headmaster of Perse School, who is admittedly one of the pioneers in the teaching of English Literature, and in his letter back he speaks as follows of them :—

“The piece seems to me quite genuine. I mean it is what he feels and not what he thinks he ought to feel. It therefore, has the essence of poetry. The wonderful thing is that all boys seem to have this when they are young. It is our business to try and keep it, and why should we not?”

## THE SURREY HILLS.

Oh! I long for the Surrey hills,  
 Where the hurtleberries grow,  
 And gipsies wander around and pitch  
 Their tents all in a row.

Oh! I long for the Surrey hills,  
 Whose sides in summer are decked,  
 With heather and gorse in all kinds of weather  
 And with pure blue hairbells are flecked.

Oh! I should love to sit and gaze  
 At the beautiful view from the top,  
 While the fresh sweet wind from the south does blow  
 The hairbells from tuft to tuft.

J. R. WILLIS.

## Old Boys' Column.

The following Old Boys visited S. Ronan's in the course of the Term :—

*Pembroke College, Cambridge*.—C. W. Thrupp, P. G. Mills.

*R.N.C. Dartmouth*.—Cadet R. I. Hoyle, Cadet A. D. S. Atkinson.

*Oundle*.—A. Gore-Browne.

*H.M.S. Vernon*.—B. R. Delap.

*Lancing*.—J. H. Boyd, A. H. E. Molson, H. Sherlock, H. James, A. F. Malcolmson.

H. B. Hoyle, Capt. C. W. G. Grimley, M.C., E. H. D. Grimley, R. L. Thrupp, W. N. Duttson, B. W. Tanner, Rev. G. N. Ryley.

A. L. Cameron (Wellington) has completed a year of remarkable success. During this period he was head of the School, and Capt. of the Cricket XI., which incidentally was one of the best that Wellington has had for some years. As head of the School he won the King's Gold Medal, and the Lord Derby Gift of

£52, presented "to the most distinguished founder of the year." He also won a Science Scholarship to Pembroke College, Cambridge; and finally, he competed last year in the Public Schools Championships Sports at Stamford Bridge, and ran with success in the hurdle race.

G. Coode-Adams (New College, Oxford). Although only a Freshman was in the first eight for Henley.

H. H. Fisher (Queen's College, Cambridge) has returned in order to complete his interrupted medical course, and also succeeded in obtaining his first May Colours for rowing.

A. F. Malcolmson (Lancing) was in the School Shooting Eight.

J. M. Cameron (Wellington) obtained his Remove into Lower I Upper School.

H. C. P. Havers (Cheltenham) is in the Special VI. He also won the College Swimming Championship, and was in the House Swimming VIII.

R. T. B. Fulford (Lancing) obtained his Remove into the Classical Upper V., and came out top of the Upper School in English.

A. H. E. Molson (Lancing) was first in his Form by over one hundred marks, and was top of the Lower School in English. He also had some of his work accepted for the School Literary Supplement.

H. E. Nourse (Winchester) will be Senior Prefect in his House next term, having been promoted over the head of a former Prefect. He has also been made a Corporal in the Cadet Corps, and will be Sergeant next term. He will be trying for a Varsity Scholarship in a year's time.

W. M. MacGregor (Winchester) has obtained his Remove into Middle Part II.

E. C. Rouse (Greshams) commonly known as the "versatile," is now up at the top of the VI., and cannot get any higher. Last term, for the first time he was allowed to play games, and was in the first House team in the House matches, which they won. He was also chosen to design and illuminate an address to one of the Masters who was leaving, and to illuminate ten pages of manuscript containing the autographs of the whole School.

D. McN. Graham (Wellington) has procured a Remove and very possibly a double one.

G. W. Mansell (Wellington) has also procured his Remove and represented his Dormitory at Cricket, although only in his first season.

J. Norwood (Wellington) also in the Cricket Team for the Hardinge, was third in the batting averages of his Dormitory, and is looked upon as one of the most promising players at Wellington. He also hopes to get a Remove.

H. James (Lancing) once more obtained promotion, this time from the Upper IV. into the Remove.

A. T. Renny (Eastbourne) is in Lower V., and has gained his Remove in Science and French.

E. N. D. Harvey (Uppingham) has been promoted from the Second Shell to the Classical Upper V.

R. I. Hoyle (Royal Naval College, Keyham) is in the top Class of the College.

N. H. Harrow-Bunn (Repton) has been removed into the Middle V., and played in the (under 16) House matches.

L. J. C. Goodbody (Wellington) who started in the under IV., has obtained his Remove.

C. H. Barnes (Winchester) played for the House (under 16) eleven, and will be in Middle Part II. next term.

S. J. Pope (Winchester) has been made a House Prefect considerably sooner than was expected, and is also a Sergeant in the Corps. He obtained his Remove into Senior Part II., and raised a History Prize.

A. D. S. Atkinson (Royal Naval College, Dartmouth) obtained his First Eleven Colours, and won the Doubles Tennis Tournament. He is thus well fulfilling his early promise at S. Ronan's.

W. W. Horne (Sherborne) obtained his School 2nd XI. Colours, and would have been in the 1st XI. had his fielding been better.

R. H. Havers (Wellington) is leaving this term to coach for Woolwich; he was a Dormitory Prefect, and in both Cricket and Football Teams.

A. T. Helme (Wellington) came out 2nd in Lower IIB.; 1st in his Maths. set and 2nd in Science.

WINCHESTER.

*To the Editor of S. Ronan's Magazine.*

DEAR SIR,

It is with a feeling of the deepest reverence and awe that I venture to pen these lines; for to my knowledge one man alone has dared to write a Public School letter, and reached his

goal. Many perhaps have reached the Editorial waste paper basket, but I feel the time has come for action.

We are a happy band of nine Old Boys at Winchester, though somewhat scattered throughout the School, and it may perhaps interest readers to hear of our doings.

H. E. Nourse is in the VIth Bk. and achieves moderate success. He was Captain of his Middle House team, and obtained a fair number of wickets and runs. He also played for his House 1. Next half he will be Senior Prefect of his House, and also a Sergeant in the O.T.C.

P. W. Walsh has just raised a Remove into VIth Bk., and indeed the past half has been one of triumph for him, for by dint of untiring labour he wrested the French Literature Prize from some 30 or 40 keen competitors, and his superb rhetoric won him honourable mention in the French Speech. Such success will be no surprise to those who know him, and who perhaps shed tears over his magnificent rendering of the Frenchman in "Ici on parle Francais," when it was acted at S. Ronan's in 1914. In cricket, fortune somewhat deserted him, but he has been known to make a firm stand against the bowling in Junior-Junior.

S. J. Pope is another who bears his blushing honours thick upon him. He is a House Prefect, and we feel he is undoubtedly a great success in this capacity. But he is really in his element as a Sergeant in the O.T.C., as those who remember his stentorian voice and his energies in the S. Ronan's Corps can testify. Yet he is also a man of letters, being the winner of the Historical Essay for his division. This is a remarkable performance, in spite of a base rumour which says there were only two competitors and one wrote on the wrong subject.

G. R. W. Beal was a prominent member of his Middle House team and played regularly for his House team. I regret that I can obtain no certain information as to his success in work.

J. V. Phipps was rewarded for his studies by raising a Remove into Middle Part I., a pleasant end to what may well have been a hard term's work. His well-known resource and coolness were shown to advantage in his position as Captain of his Under 16 House team, in which he was frequently responsible for high scoring.

C. H. Barnes played in his Under 16 House team and might often be seen getting the left foot across and punishing the loose ones. He also obtained his remove into Middle Part II.

J. S. Garrett, W. Macgreggor, and N. G. Stone continued their former triumphs both in work and games, but details are unfortunately lacking from these gentlemen.

We were very glad to welcome Mr. Harris during the term and to form a large and noisy party at lunch. In conclusion may I hope that many more from S. Ronan's will swell our numbers?

With deepest apologies for this excursus,

I remain,

Yours etc.,

SCRIPTOR WINTONIENSIS.

## The Athletic Sports.

As usual we were fortunate in having a most beautiful day for this meeting, and as it was the first one that has been held for some time under pre-war conditions, a big crowd was present. The sports themselves, though not up to the standard of some of our past years in the matter of performances, as far as the Seniors were concerned, produced some splendid competition, and one or two very good results. Smyth's Quarter-mile was exceedingly good time for a boy who is only just over the standard of age for Seniors, and he actually succeeded in lowering the record for the 660 Yards which has been held for some years by R. L. Thrupp. Thomas' high jump, without being anything remarkable, was quite good. The Juniors were an exceedingly good lot, and in Seton, Barty-King and Willis, produced three runners fit to rank with Phipps, Grylls and Barnes, in the days when they did such good performances in the Junior events. Barty-King was possibly the best of the three, but on the day he ran with a certain lack of judgment and determination, with the result that he was beaten in both races. Seton put great power into his running, and Willis also showed most promising form. Dr. Hinds very kindly gave away the prizes. Detail:—

*High Jump (Senior).*—1, Thomas; 2, MacGregor, ma. Height 4 ft. 1 in. MacGregor cleared 4 ft., but could go no further, and Thomas just managed the extra inch.

*100 Yards (Senior).*—1, Smyth; 2, Thomas. Time 13 secs. Smythe ran extremely well, and was a comfortable winner by four or five yards.

*100 Yards (Junior).*—1, Seton; 2, Willis. Time  $13\frac{3}{8}$  secs. This produced a splendid race, and the first two and Barty-King were always within a yard of each other.

*100 Yards (under 10).*—1, Boyd; 2, Swingler. Time  $14\frac{1}{2}$  secs. Boyd created rather a surprise by beating all the other competitors by two or three yards.

*Hurdles.*—1, Thomas; 2, Williams. Time 18 secs. Although for the first time for several years none of the competitors were able to do the straight-legged method, there was an excellent race in this event, and Shute was a good third.

*220 Yards (under 10).*—1, Swingler; 2, Dudley. Time  $33\frac{5}{8}$  secs. Swingler ran exceedingly well, and won by four yards. Dudley, who had been indisposed a day or two before, might otherwise easily have won both this race and the 100 Yards.

*Long Jump (Senior).*—1, Thomas; 2, Osler, ma. Distance 11 ft.  $2\frac{3}{4}$  in. The less said about this jump the better, as it was the worst long jump we have known at S. Ronan's.

*Long Jump (Junior).*—1, Seton, ma.; 2, Head. Distance 11 ft. 9 in. A moderate jump only for juniors, but a little better than the senior jump.

*Quarter Mile (Senior).*—1, Smyth; 2, Williams. Time  $68\frac{4}{8}$  secs. Smythe made his own running, but Williams and Thomas hung on to him all the way round, and the result was a very fine race, which was won by three yards, with Williams a similar distance in front of Thomas.

*High Jump (Junior).*—1, Corcoran; 2, Mount. Height 3 ft. 5 in. A moderate jump for juniors.

*300 Yards (Juniors).*—1, Seton; 2, Barty-King. Time  $45\frac{1}{2}$  secs. This time equals the record made by Smythe last year. As expected, it was a splendid race. Willis set the pace and led for 160 yds., and Seton then forced his way to the front. Barty-King, who showed bad judgment in hanging too far behind, made a great effort a hundred yds. from home, and passed Willis but failed to catch Seton. Had he taken the lead at the start, he would have had a good chance of winning.

*Throwing the Cricket Ball.*—1, Harrow-Bunn; 2, Shute. Distance, 56 yds. 2 ft. A fair throw, better than during the last two or three years.

660 *Yards Open*.—1, Smyth ; 2, Thomas. Time, 1 min. 53½ secs. Smythe again made his own running, but Thomas again hung on to him throughout the whole race. In a good finish Smythe just managed to lower the existing record.

*Sisters' Race*.—1, Miss Barty-King ; 2, Miss Chetwynd-Stapylton.

*Strangers' Race*.—1, Master Newcombe ; 2, Master Chrestien.

*Obstacle Race, Juniors*.—1, Stuart ; 2, Hopwood.

*Obstacle Race, Seniors*.—1, Williams ; 2, MacGregor, ma.

*Three-Legged Race*.—1, Gregson, ma., and Price ; 2, Mason and Graham, mi.

*Relay Race*.—Thomas' team.

*Consolation Race*.—1, Outram ; 2, Croft.

*Old Boys' Handicap*.—1, J. H. Boyd ; 2, B. R. Delap. This produced a very good race, and Delap, who was on the scratch mark, just failed to catch Boyd who had some ten yards start.

*Fathers' Race*.—1, Mr. Boyd ; 2, Mr. Eden.

*Tug-of-War*.—Harrow-Bunn's VI.

*Victor Ludorum*.—1, Thomas, with 22 points ; 2, Smyth, with 16 points.

## Swimming Races.

The Swimming Races took place in the Worthing Baths on Thursday, July 24th. Owing to the present youthful state of the School there were comparatively few entries for the Senior event, which was won as expected by Mason in 1 min. 35 secs. He, however, by no means had a walk over, as Goggs was actually leading by a couple of yards with only a quarter of the distance to go. Seeing however that he was taking Mason's water, he shifted over to the side, thus sacrificing his lead. Mason at the time was coming up, so it is impossible to say who might have won. Thomas gave Mason a hard race, and gained second place with Goggs just behind for third. In the Junior event there were three heats, but the final saw a fine struggle between Saffery, Wake, Smyth, and Soames ; the result being in the order named. In the All Clothes race, Mason again won with Thomas second, and Wake, one of the Juniors, managed to annex the third place.

Results:—*Seniors* (two lengths or 66⅔ yards): 1, Mason ; 2, Thomas ; 3, Goggs. Time, 1 min. 35 secs.

*Juniors.*—(one length or  $33\frac{1}{3}$  yards): 1, Saffery; 2, Wake; 3, Smyth.

*All Clothes Race.*—(one length): 1, Mason; 2, Thomas; 3, Wake.

## Arundel Day.

SCENE I.—June 7th.

“I say, Willis, promise you won't tell anyone?”

“Righto; what's the joke?”

“I know when Arundel Day is; I do really, I know for certain.”

“All right, old phiz, you're not the only one, I know too.”

“Rot, I don't believe it; anyway, how do you know, and when's your date?”

“It's on June 15th, and I know it must be so, because Schreiber told me so.”

“Get away, what's old Schreiber know about it?”

“Well, he and Bill saw it by accident on Harry's table, written on one of his little bits of paper; they told him, and he asked them to say nothing about it.”

“Well, they are rotters then to have told you, that's all.”

“You are a silly face-ache, Corkey, they did'nt give it away, of course; but Schreiber said the date when added together, could be divided by 2 and 3, so it must be 15.”

“Good 'lor, yes, so it must, let's tell Smythe; he won't say anything.”

They do so after binding him to secrecy.

On the evening of June 14th, only 43 boys know it is Arundel Day next day.

SCENE II.—June 15th.—Breakfast.

Enter Messrs. Harris and Vinter, former clad in flannel trousers and a broad smile.

Excited whispers round the Hall: “It must be Arundel Day, he's got flannel bags on.” “Mr. Vinter can't help smiling etc, etc.”

SCENE III.—June 15th.—After breakfast, Mrs. Murray's Room.

Vogel: “Please, Mrs. Murray, may I have a bottle to carry water in.”

Williams: Ha! Ha! “I knew it all along.”

Chorus of voices : " All right, don't swank, flap-ears."

Exit hurriedly, yelling and shrieking, in search of various necessaries, such as toboggans, etc.

SCENE IV.—Same day, 9 a.m.—Scholarship Class Room.

Mr. Vinter : " Thomas, explain the binomial theorem."

Thomas : " Please, Sir, is'nt it Arundel Day?"

Mr. Vinter : " Certainly not, why should it be?"

Thomas : " Williams and Schreiber saw it on Mr. Harris' desk, sir."

Mr. Vinter : " Oh ! he put it there on purpose to have you on ; now get ahead."

By this time, similar scenes of a more or less rebellious nature were being enacted in other Class Rooms, and only with difficulty were people persuaded that it was in truth not Arundel Day.

SCENE V.—Friday, July 11th.

At breakfast, Mr. Harris announced the fact that we were going to Arundel that day, and gave various directions. His announcement was received with complete incredulity and utter disdain, except by Shute, who had heard Nellie tell Matron that Nancy had heard Mabel tell Walls that Cook had got her best dress on.

Arundel Day it was, however, and at nine o'clock off we started, 96 in number, in three motor char-à-bancs. We arrived in the Park in the company of a gentle drizzle, which stuck to us with occasional intervals of bright sunshine till 2 o'clock. After that it turned to steady rain which went on for the rest of the day. This might well be considered sufficient to damp our ardour as well as our clothes. By no means, however. During the first hour or so, things hung fire a little, since to the greater number of those present the experience was a new one, and they hardly knew how to begin. Once started, however, they rapidly made up for lost time, and whether in tobogganning, eating, scouting, or what not, nearly all rapidly reached that state so dear to boys' hearts—a condition of indescribable heat, grime, and noisiness. Certainly on this occasion they rose superior to circumstances, and unfortunate though the rain was, contrived to make the best of it. Messrs. Vizard and Jevons were unfortunately prevented from carrying out their motor boat trip, whilst a pleasant little afternoon scheme planned by Walls for the domestic staff, also perforce fell through. Be these things as they may, evening fell at the close of a happy day—the first Arundel Day for three years,—the first, but let us hope, not the last in the new era of Peace.

## The Cricket Season.

It has been a particularly interesting Cricket Season, and it is particularly interesting to write about it. Not a single colour remained from last year, and as was the case with the Rugger, and as it will be with the Soccer next term, we had an exceptionally young set of people.

As far as results go, the record is the worst we have ever had on paper, namely, five wins and six losses. Having said that, however, we have said the worst. Although much smaller and younger than any school we played, except one, never once were we beaten easily, always the game was close; indeed, had it not been for weakness in batting—a weakness entirely due to youth and inexperience—our record would have been up to our usual years. The batting was weak, but it was weak for the reasons given above and not because there was no material; on the contrary there is great promise. Having shewn the cause of our weakness, it is pleasant to dwell on the causes which saved us from being as weak as we had feared in the first instance, and which enabled us to give even our strongest opponents a tough fight. First, there was never greater keenness shewn than during this season; one and all, the boys were prepared to take endless trouble; they were always anxious to be coached and were always keen on fielding practice; the spirit was willing and enthusiastic. The results of this soon became apparent, for though so small, the team was one of the best fielding sides we have turned out; the ground work was smart and clean; the catching sound and in many cases excellent. The bowling, too, which had seemed likely to be very weak, actually became very useful indeed and distinctly better than in either 1918 or 1917.

For all this great credit must be given to Williams, who was captain. He set a fine example of keenness in the above matters himself, took any amount of trouble with the younger members of the School, and was observant and thoughtful in his captaincy on the field. His example inspired every one, and with probably eight of the side remaining till next year, the prospects

of our being right up to our normal high standard, and possibly above it, are very bright. Of those who will, we hope, be remaining, the following shew great promise ; Williams, Shute, Mount Barty-King, Bowlby, Willis and Montgomery, while Spens should be useful. Of the others, much may be expected of Bowen-Davies, Marples, MacGregor, ma., and we have distinct hopes of Smyth, if he learns to field, Gregson, ma., Gordon-Walker, ma., Suffery, Outram, Hopwood, Havers, and several others. It was hard luck that Harrow-Bunn should have been deprived by illness of half his season.

### CHARACTERS.

A. H. WILLIAMS (Captain). Made a very great improvement on last year's form, and has every prospect now of becoming a really good left-hand batsman another year. His bowling is also promising, as he keeps a good length and has a natural leg break. A good field and catch.

J. G. St. G. SHUTE. Though not yet sound has all the makings of a really good bat, as he possesses hitting powers, and has plenty of strokes. Is also a very steady and useful bowler, and an excellent field and catch.

D. A. S. BOWLBY. A good defensive bat and a very useful bowler with a swerve. Slow and unsafe in the field.

G. I. BARTY-KING. Though still very unsound, is a promising batsman, and a first-rate field and catch.

R. D'A. MOUNT. Perhaps the most promising batsman in the School, and should also bowl well another year. Fair in the field.

J. R. WILLIS. Improving fast with both bat and ball, and has a bright future. Very good in the field, and has a safe pair of hands.

M. A. F. MASON. Though he occasionally played a useful little innings, did not in any way come up to expectations. A very poor field.

F. L. HARROW-BUNN. Failed to come off as a bat, and made no improvement in his wicket keeping.

R. J. H. THOMAS. A good ground field but catching uncertain. Watches the ball but has no style.

C. H. SPENS. A very good ground field and a useful catch. May make runs another year.

J. A. L. SCHREIBER. Watches the ball well, and has made runs on occasions. Slow but fairly safe in the field.

E. E. MONTGOMERY. Came into the team in Harrow-Bunn's absence, and showed considerable promise both as wicket keeper and a batsman.

S. RONAN'S *v.* WYKEHAM HOUSE.

Played at S. Ronan's on Wednesday, June 11th. Since we did not possess a single colour from last year, and our opponents had a good many of their old side, we hadn't too much confidence in our ability to win this match. It was therefore highly to the credit of everyone concerned that we gained such a decisive win. The reasons for our success, were in the first place, very good bowling and fielding. Shute bowled a capital length, and was well backed up by Williams, and the fielding was smart and keen. In the batting line, Bowlby and Williams gave the side an excellent start by putting up 42 for the first wicket. After that, however, there was a collapse, and four more wickets fell for an addition of only five runs. Barty-King, with Bowlby, managed to stop the rot, and with Schreiber batting well later on, we finally ran out easy winners. Williams and Bowlby both played excellent cricket, though they were rather on the slow side, and great credit must be given to Barty-King, and Schreiber for staying in at a critical moment. Score:—

S. RONAN'S *v.* WINDLESHAM HOUSE.

Played at Windlesham House on Saturday, June 14th. Our side took rather a severe defeat in this match against Windlesham House, who as in Rugger have a very good side this year. There was no fault to be found with our bowling or fielding; indeed we did very well to get them out for 87, but our batting, with the exception of Williams, collapsed badly. Bowlby had rather hard luck in being run out, but otherwise the only people who stayed in for any length of time were Schreiber and Willis. Williams batted well and steadily throughout the whole innings but was unable to get the ball away to any extent. This is the smallest total for which S. Ronan's has been dismissed within the last ten years, our only consolation being that it is over twice as many as Windlesham House made against us in 1912. Shute, although he did not bowl as well as in the previous match, showed quite good form with the ball, and Williams kept a very steady length and met with considerable success. The fielding, as has been mentioned, was smart. Score:—

S. RONAN'S *v.* SEAFORD HOUSE.

Played at Littlehampton, on Wednesday, June 18th.

We succeeded in winning a somewhat narrow victory by 12 runs on this occasion. The tail wagged vigorously, and though no one made any great score, the batting as a whole showed more confidence, and it is probable that several of the team will make runs when they once get well started. Mason showed an improvement on the very poor form he had been displaying this term, but Harrow-Bunn is still quite off it. Williams was batting well when he was caught and quite good form was showed by Bowlby, who had the misfortune to be out to a wrong decision; Shute and Schreiber, Barty-King, Willis, and Spens were all batting nicely while they were at the wicket. The bowling was not quite so good as usual; Shute being distinctly below the standard of the last two matches. The fielding was quite good and the catches were held. Score:—

S. RONAN'S *v.* DORSET HOUSE.

Played at Littlehampton on Wednesday, July 2nd. Although our opponents were weaker than has frequently been the case, this must not detract from the merit of our best batting performance up to the present this term. It has been clear that several of the team only wanted to get a start in order to do quite well, and it is to be hoped that the displays in this match are merely the precursors of better things to come. The chief credit belongs to Shute and Williams, who both played very good cricket, but Mason played a very useful innings at the start, and Barty-King was going strong at the finish. When Dorset House went in to bat, Shute had a brief rest after his innings before going on bowling, but when he did do so, was too good for the opposition. Williams and Bowlby also bowled quite well although they did not procure many wickets. As has been the case all through this term, the fielding reached a high pitch of excellence, everyone going in to meet the ball instead of waiting for it, The catching was very fair though not yet quite reliable. FATHERS *v.* SONS.

Played at S. Ronan's on Saturday, July 12th. The weather which was of a threatening nature right up to the very start of the match, cleared up in the most approved style for the afternoon, and enabled us to have a most enjoyable game. The first year after the war was marked by the appearance of a full team of Fathers, and a very useful team it was, for a large number though clearly out of practice, had equally clearly been good cricketers; and the team as a whole was a great deal too strong for the boys, who are not as powerful in batting as is usually the case. This victory gives the Fathers a lead of one on the series of matches played. The School Eleven went in to bat first and amassed 62; Barty-King being top scorer with 13. He showed very promising form, and Mount also was batting well when he was bowled by Major Shute. Thomas and Mason also played good cricket. The Fathers were, on the whole, kind to us during their innings, but it is pleasant to relate that the high standard of fielding which has been so noticeable during this season was kept up. Major Barty-King was run out by his own son after a very smart piece of work. Shute bowled very much below form, but Bowlby kept a good length. In the Second Innings, the best batting form was shown by Mount, Barty-King, Bowlby, and Schreiber. Score:—

S. RONAN'S *v.* ROTTINGDEAN.

Played at S. Ronan's on Tuesday, July 15th. This match produced a good struggle, which ended in a creditable win for us by 19 runs. Our opponents won the toss and went in first, but found Shute and Bowlby at the top of their form in bowling. The former kept an excellent length, and the batsmen could not get him away at all, while Bowlby, bowling round the wicket, with a cross wind, swerved a yard or more. The bowlers were backed up by some very keen and accurate fielding, and Rottingdean were disposed of for 46 runs. The wicket was on the soft side, and we also found our work cut out to get runs. Bowlby and Shute, however, both played very good cricket, and later on at a very critical moment, when there appeared some danger of a collapse, Thomas kept his end up while Montgomery hit vigorously. S. RONAN'S *v.* THE WICK.

Played at S. Ronan's on Thursday, July 17th. This match produced a most thrilling struggle in which our own side, against a much bigger and more experienced team, put up a very fine fight. Had it not been for two incidents the result would probably have gone the other way. The first of these two incidents occurred at the commencement of our innings, when Bowlby and Montgomery both foolishly ran themselves out. Montgomery at the time was batting with great confidence, while Bowlby was displaying his usual imperturbable defence. Later on Williams played very good cricket and showed how quickly he is improving both in defence and in the acquisition of scoring strokes. Barty-King managed to stay with him for a little while, and Schreiber and Spens made valuable additions to the score. On our opponents going in to bat they made none too good a start, and lost four wickets for 32 runs. Their captain, Thomas, who had been batting with exceptional success the whole season, fell nicely into a trap, placed for him at deep square leg, and was well caught by Shute. Their fifth wicket actually put on 40 runs, thus placing the match, as it seemed, beyond doubt. At this period however a most exciting struggle commenced. With the score at 72 Holding was bowled by Shute. One run only was added when Williams, who had gone on instead of Bowlby, took three wickets in one over, the eighth wicket falling at 73, and two excellent catches being brought off by Spens and Barty-King. Then came the other unfortunate incident which lost us the match, Shute seizing the opportunity to deliver three full pitches running to the batsman who had been making all the runs. The Wick innings was chiefly remarkable for a good score of 45 by Maughan, and some of the best fielding and catching that has

been accomplished by any S. Ronan's team. Willis in particular made a brilliant catch right at the beginning. Williams bowled his leg breaks with great success. Score:—

This match was a re-play on the Sports' Ground under better conditions, but unfortunately we were not able to repeat our good batting performance on the previous Saturday. The bowling and fielding however were once more excellent, and Montgomery was very good behind the sticks. Score:—

S. RONAN'S *v.* MOWDEN SCHOOL.

Played at Brighton on Thursday, July 22nd. Another very good game resulted in a win for our opponents by 18 runs.

Mowden won the toss but made none too good a start. Indeed, had it not been for two boys, their score would have been of very modest proportions. Montgomery was good behind the wicket and the catching was once more sound, but the ground fielding, though very fair, was not quite so smart as usual. Williams bowled exceptionally well, but Shute and Bowlby were not quite as effective as usual. The former made the ball turn appreciably from leg and kept quite a good length. He also played excellent cricket and was well backed up by Shute, who however does not always use his opportunities for scoring. The rest of the batting was weak in the extreme. Score :—

S. RONAN'S *v.* DORSET HOUSE.

Played at S. Ronan's on Wednesday, July 23rd. We won an easy victory in this match by 82 runs, and though our opponents played pluckily, they were a distinctly weaker side. Williams and Shute were both in excellent bowling form, and very good batting displays were given by Williams and Bowlby, who were well-backed up by Mount and Schreiber. The fielding was again very smart. Score:—

S. RONAN'S *v.* ROTTINGDEAN.

Played at Rottingdean on Saturday, July 26th. Rottingdean succeeded in avenging their former defeat in this match, winning

by three wickets. With the exception of Willis and Shute, both of whom played exceedingly well, we showed lack of enterprise in batting. Our bowling however was again good, but although some of the fielding and catching was excellent it did not reach such a high standard as usual, and an easy catch dropped by Mount and another by Thomas probably cost us the game as the two people who were dropped were those who made the runs for our opponents. ## S. RONAN'S SECOND XI. v. WYKEHAM HOUSE SECOND.

This game produced some exciting and tense situations. S. Ronan's batted first. Gordon-Walker played well for his eleven

runs. Goggs put in some sturdy hitting. Gregson, ma., also batted well, while the last pair, Havers and Hopwood took a lot of separating, adding 20 runs, Havers hitting hard and keeping the game lively. Wykeham House started with a left-handed batsman, who somewhat flurried the field and bowlers, and 70 runs were put on before he was dismissed by Corcoran at wicket. The second batsman, Gregson dismissed by a nice catch. The other wickets fell more quickly, Gregson bowling very well. The scores were now nearly level, the last pair of batsmen playing very carefully, however, Smyth caught and bowled the last man, and a most exciting game ended in a draw.
