## Occasional Notes.

---

**Half-Term Holiday, March 1st.**

**Term ends, March 31st.**

---

The Steeplechase will take place on March 13th and the Sports on Wednesday, March 31st.

---

We welcome to the Staff Mr. F. W. Felkin, M.A.

---

The proceeds of the Christmas Play, which are to be given towards the fund being raised to purchase a new piano, amounted to £49 4s. 0d. Though not as much as last year, this is very satisfactory, because, owing to the two performances at the *Conversazione*, not nearly the usual number of tickets was sold. Our heartiest congratulations to the Dramatic Society. A report on the play appears later in this number.

---

We are asked to announce that on or about March 29th the Stockport Garrick Society has consented to produce, in the School Lecture Theatre, "*Le Bourgeois Gentilhomme*," as translated and adapted by Mr. Collinge. The proceeds will be given to some charitable institution. Further particulars will be announced in the School during the next few weeks.

---

We hear that the O.T.C. has now been supplied with 1914 equipment. Will this attract recruits? We sincerely hope so.

---

We congratulate the Dance Committee, and especially J. L. Latimer, on the success of the "Second Annual School Dance," a further report of which we print in this number.

Our thanks to Sir Charles Behrens, through whose generosity a number of us were able to see the investiture of Earl Haig at the Hippodrome.

---

Rumours are current that an attack is to be made on our machine gun. May we suggest that it be moved from its present useless position to one of greater strategic advantage?

---

This term the School has been doing its bit towards the solution of the unemployed problem by acting as an unofficial Labour Exchange. Posts have been secured for twenty demobilised men, and sixty others have been sent to firms where vacancies were known to exist. It is hoped that all Mancunians will report at the "Ministry of Labour" (Room 44) any vacancies of which they may hear, or any cases of unemployed officers or men who need help.

---

A School Cycling Club is in process of formation. All boys, especially photographers and naturalists, were invited to attend a preliminary meeting held on February 13th. We hope that the School will rise to the occasion and support a club which should be a great success.

---

Some details of the Microscope presented to the School by Mr. H. Crummack (O.M.) are given under Natural History Notes.

---

Contributions, other than those relating to the O.M.A., will be received by Mr. A. S. Warman at the School.

---

## O.M.A. Notes and O.M. Chronicle.

---

The J. R. Broadhurst Memorial Fund will soon be closed. Additional contributions will be gladly received by Mr. Warman, the treasurer.

---

Mr. G. N. Clark, Fellow of Oriel, has been appointed Assistant Editor of the *English Historical Review*.

---

Mr. Gilbert M. Harvey has been appointed foreign Sub-Editor on the staff of the *Morning Post*.

The late Rev. C. L. Bedale, B.D., contributed an article on "The Nations contemporary with Israel" to Dr. Peake's one volume Commentary on the Bible.

---

L. Golding contributes two poems to a Miscellany of Poetry, 1919.

---

P. Leon has an article on "An ambiguity and misconception on Plato's Idea of Morality in the Republic," in No. 112 of the XXIII. volume of "Mind."

---

A forthcoming volume in the "On Active Service" Series, published by John Lane, is "At Ypres with Best Dunkley," by T. H. Floyd (O.M.)

---

John Chuidian has just graduated from a military college and returned to Manila.

---

Mr. A. E. Sandys-Wunsch has been appointed Superintendent of the City of Norwich Parks and Allotments.

---

Mr. Harold Walmsley, L.D.S., has been appointed School Dental Surgeon to the County Borough of Stockport. It is the first Dental appointment made under the Local Government Authority.

---

Mr. C. S. Gibson, O.B.E., has been offered and has accepted a Professorship of Chemistry at Cairo.

---

Mr. M. F. Lichauco has been representing the University of Pennsylvania and the Massachusetts Institute in the gymnastic competitions against other Universities.

---

Mr. Walter C. Hankinson has obtained a first division clerkship in the Civil Service and been appointed to the Colonial Office.

---

Mr. A. McL. Currie has gained a distinction in the Greats Shortened (War) Course.

---

Mr. H. E. Barlow has been elected to an Open History Scholarship at St. John's College, Cambridge.

J. R. Edwards, Scholar of University College, Oxford, has been awarded a Goldsmith's Exhibition.

---

His younger brother, N. L. Edwards, has been doing great things at Manchester. Besides passing his 2nd M.B. with distinction in Anatomy and winning the University Prize of £25, he has also gained the Dauntsey Medical Scholarship and the Tom Jones Anatomy Prize.

---

Mr. W. H. W. Whyman has been elected Grace Calvert Scholar at Manchester University.

---

A Kitchener Memorial Scholarship of £120 a year has been allotted to D. R. V. Timperley for Chemistry.

---

Mr. E. Raymond Streat has been appointed Secretary of the Manchester Chamber of Commerce. This important and influential post he has attained at the early age of 22. He left School in 1913. He has been acting since November last as Assistant Secretary.

---

The Rev. W. D. Cole is now working for the C.M.S. in E. Africa.

---

Mr. C. M. Rogerson, who was blinded in the war, has just matriculated at B.N.C., Oxford, and is reading for the School in English. He is the first O.M. who has matriculated in Braille, and the second blind student to read for English.

---

Mr. P. W. Wilson, Special Reserve, Coldstream Guards has been appointed News Editor of the *Sunday Times*, in succession to Mr. E. Lawton, now Editor of the *Daily Graphic*. Mr. Wilson went from the School to Victoria University, and then to New College, Oxford. He was for some time on the staff of the *Daily Mail*, and afterwards of the *Times*.

---

N.B.—Will members please note that subscriptions should be paid to Mr. FRED ETHELLES, Assistant Secretary, at the School, and that changes of address should be notified (also to Mr. ETHELLES) without delay.

## School Honours.

---

- C. Hignett, the Ireland and First Craven Scholarships, Oxford.
  - J. C. Blake, Open Classical Scholarship, Queen's College, Oxford.
  - L. Cornofsky, Open Classical Scholarship, St. John's College, Oxford.
  - F. Turner, Open Classical Scholarship, Sidney Sussex College, Cambridge.
  - J. C. Taylor, Royal Humane Society's Award for saving life.
- 

## Obituary.

---

HAROLD WM. WHITE.

It was with great sorrow we heard of the death of Harold White on Sunday, January 18th. He had not been at School since Easter except for occasional visits on crutches. A malignant growth necessitated the amputation of his right leg. That was in May of last year. Unfortunately that did not stop the spread of the disease. It broke out again in two places last December, and the end was inevitable.

He was born in 1903, and came to School in 1916 from Ducie Avenue. At our National Service Camps, first at Stoke Rochford, then at Pershore and in Lincolnshire, he was one of the best of comrades, always helpful, always cheerful, always loyal—a real scout. He met his trouble in the same spirit. "Of all the people connected with the operation," said Dr. Howson Ray, "he seemed to be the least concerned." At the Nursing Home, as soon as he was able to get about, he was down in the cellar helping with the mangle. It was always his joy to help. He was elected to the Hugh Fullerton Bursary last September—he was the first to hold it—but was unable to take it up. He was buried on Thursday, January 22nd, in the Southern Cemetery, hard by the spot where the crossed propellers mark the last resting place of the great trans-Atlantic airman Sir John Alcock.

---

THE LATE REV. FREDERICK WAREHAM, M.A., B.D.  
(Trinity College, Dublin).

Mr. Wareham was a Master at the School from 1873 to 1875, when he entered into Holy Orders and became Curate of St. Stephen's and All Martyrs' Church, Oldham.

Mr. Wareham took some Junior Forms on the M.L. side of the School in Elementary Mathematics, and English subjects, etc.

In common with Mr. Francis Jones, Mr. Wareham was a great insister on systematic note-taking, and on an equally systematic and complete expansion of the notes, and, again like Mr. Jones, he saw that he got it. We used to call it "Mr. Wareham's Essence," as he always went direct to essentials. He first shewed us the value of graphic methods in studying Euclid, and great was his success. He insisted on clear utterance—plain direct diction and correct emphasis and modulation of the voice, whether in ordinary conversation, reading in class, or *viva voce* examination. All this may be "common form" to-day—but it was not so in Manchester in 1875. Mr. Wareham's example and teaching were always strenuously directed towards the formation of good habits and methods and strong reliable character, and in many ways he was distinctly a pioneer. I crave, therefore, a little space in *Ulula* to mark the passing of a strong, eager but ever kindly and benignant personality. He might have been a great schoolmaster, but told me he thought his true *metier* lay in the Church. There he laboured as a good and faithful servant until the end came in October last. Mr. Wareham had been Rector of Heaton Mersey since 1907.

J. B. BARDSLEY.

---

#### REV. DR. BERLIN.

By the death of Dr. Berlin the School has lost an old and trusted friend. As modest as he was good, he took a long time to make friends, but those friends he did make, and he fortunately lived long enough to make, will always remember him for his wonderful fund of sympathy. He was a scholar of no mean order, taking that delight in scholarship for its own sake which is so rare now-a-days.

Before he came to us he had held the position of Minister to the Hebrew congregation at Newport and Plymouth, and had also been Headmaster of the local Talmud Torah School. He contributed learned articles to works on Semitics, and was invaluable as an assistant in the compilation of Rev. Singer's famous Prayer Book and Mr. Arthur Davis's "Service of the Synagogue." In the "Story of the Jewish People," by Mr. J. M. Myers, his help too was of great service.

Engaged as he was in research in the works of antiquity, Dr. Berlin still found time to do much communal work. Nothing which would be of service to anyone was beyond him provided it was only within the realms of possibility. Many

will remember him for the unstinting aid he gave for the asking. He brought to his work a zest which younger men may have envied, and infused an enthusiasm into his teaching which will inspire many Old Mancunians and present boys to great efforts.

Our deepest sympathy is extended to his wife and children.  
I. W.

---

## The Conversazione.

---

### THE PLAY.

"A Midsummer Night's Dream," scenes from which were given by the School Dramatic Society towards the end of last term, quite fulfilled expectations. For reasons known only, apparently, to the ruling powers of the Society, the performance only lasted one hour, and to bring the play up to its usual high standard, the acting had to be specially good. One can say nothing of the duke and the other courtiers, who were evidently only considered as stage properties for the last scene. Of the Athenian artisans, three were specially good. Rohleder's performance as "Bottom" improved as the week wore on; Mitchell, as "Starveling," interpreted his part very well, and Wilson, as "Quince," threw himself into his rôle with characteristic energy. May we remark that Quince was rather *too* well groomed for a carpenter? It was unfortunate that two members of the caste were unable to appear at the final two or three performances, but their understudies, who, we understand, were only rehearsed at the last moment, played their parts with credit. In conclusion, a word about the staging of the play. Mr. Garnett has produced the play for some years now, and we fear that the audience rarely realises how much time and talent he has to spend to make the play a success. The scenery this year far exceeded anything we have ever hitherto seen in School theatricals, and we wish to take this opportunity of congratulating him on the success of his work.

### THE CONCERT.

An interesting programme was provided at the Concert, which was given on the evenings of December 15th, 16th and 18th, and under the able conductorship of Mr. J. Wills, A.M.C.M., the performances were up to the usual high standard. The only solo singer was N. Elliott, who gave Dudley Buck's setting of "O merry goes the time when the heart is young"

with good expression and intonation. A 'cello solo was played by R. Whittington—a Tarantella by Squire—which is above the average of compositions bearing that title; and S. G. Corbishley gave Grieg's "To the Spring," a piano piece characteristic of the composer's style. Both of these merited the approval of all hearers.

The choir, over 120 strong, looked very imposing, reinforced as it was, in the tenor and bass divisions, by O.M.'s and members of the staff, and by several ladies who kindly gave their assistance to the sopranos and altos. A four-part song, "Tubal Cain," by C. A. E. Harris, was sung with vigour and a harmonious blending of voices, and these qualities were equally noticeable in Sterndale Bennett's "Come live with me," and Sullivan's "The Long Day Closes."

The orchestra, numbering 36 in all, was also reinforced to some extent, though the leaders of both first and second violins—W. L. Cohen and E. Fuchs—were still "*in statu pupillari*." In two movements of a Symphony by Mozart (No. 31, in D) the flutes and clarinets were not wanting, and the conductor's indications were well followed. The "Menuett," by Boccherini, was for strings only, and none but a very severe critic could have found fault with the performance. The remaining item, in some ways the gem of the concert, was a portion of a trio (Adagio and Minuet) by Mozart, played by Mr. Wills, E. Fuchs, and W. L. Cohen.

Our best thanks are due to Mr. Wills, as on previous occasions, for his arduous work at rehearsals, and to the voluntary helpers, most of whose names are familiar, for again giving their services.

### GYMNASTIC DISPLAY.

The Gymnastic Programme was short and varied, and consisted of Swedish Drill, Wand Drill and Apparatus work. There were about twenty in the Drill Squad, and the succession of breathing, chest, and balancing exercises, etc., of the Swedish Table was rapidly gone through. Perhaps the most amusing part was the rapidity with which the orderly drill formation was converted into the apparently hopeless *melée* of "Two's and Three's," or Leap-Frog, and back again into line.

The Wand Drill was performed without mishap, and then followed an Old English Morris Dance, rejoicing in the name of "Truncles," danced by two teams of six. This form of exercise is becoming increasingly popular, and threatens to become a considerable part of the physical training in schools and elsewhere.

The actual Gymnastic Display consisted of elementary and advanced work on the Horse, Horizontal Bar and Parallel Bars, by the School Eight and others—the advanced portions chiefly by Mr. Kennelly, T. Scott, O.M., and R. H. Colling, O.M., to whom the best thanks are due for their invaluable help. It is, however, to Mr. Macaulay and his staff that our gratitude is especially due for all the care taken in producing such an excellent display of litheness, grace and muscle.

---

## The School Dance.

---

The Second Annual Dance was held in the Gymnasium, on January 9th, when the pleasant memories of last year's first venture were revived. Successful as last year's dance was voted by all to be, the dance this year was even more successful, and naturally so; for not only were the few errors last year set right, but the idea of a School Dance was no longer novel and strange, and everyone seemed to look at the event as a long-established institution. There was a large demand for tickets, and about 300 were sold; though, strange to say, the number of Sixth Form boys present was less than it was last year. We could not help thinking as we viewed the joyful faces of the dancers as they danced happily round the room, that there could scarcely be any reunion of O.M.'s more pleasant than an annual dance. The benevolent spirit in which everyone looked at everything, the happy mood in which the whole evening passed pleasantly by, and the frequent intervals in which sweet memories of boyhood and youth were recollected and re-told, seemed to be an ideal way in which old boys should renew their acquaintance with their old School. The rhythmical movement of the dancing made one feel very pleased with the world in general, and the almost entire absence of military uniforms was a cheerful sign of the return of peace. During the interval, the dancers proceeded to renew their acquaintance with the Refectory, though not with that dream of the past, the sixpenny dinner.

The success of the dance was mainly due to the excellent organisation, for which thanks are due both to the Dance Committee (especially J. L. Latimer) and also to Mr. Griffiths, who was largely responsible for the harmonious manner in which the dance programme was carried out to the satisfaction of everybody. But thanks are also due to the O.M.'s whose eagerness

ensured the success of the dance; and to the ladies, whose presence was much appreciated. In conclusion, we hope that future School dances will be as successful as the dance was this year. We are glad to announce that out of the proceeds of the dance it was found possible to subscribe the sum of £4 to the European Babies' Fund.

A. H.

---

## Old Boys' 120th Anniversary Dinner.

---

The 120th Dinner was a great success, and a record attendance of 150 commemorated what was virtually the 400th anniversary of the founding of the School.

The Junior Steward (Engineer Commander S. P. Start, R.N.) proposed the first toast of the evening, "The pious memory of our Founder." He spoke of the great advantage the School had in its splendid tradition. Tradition counted for much.

The Senior Steward (Sir C. T. Needham) proposed "Prosperity to the School." After observing how cordially he appreciated the honour done to him, and expressing his delight to see so many O.M.'s present, he went on to say that never, he thought, was the School so prosperous as it was to-day, not a little of which prosperity was due to the High Master. The High Master was one of Manchester's foremost citizens. The toast, said Sir Christopher, was fundamentally a toast to the young people, in whom he had great faith. The new Education Act heralded the dawn of a new era.

The High Master, replying, thanked the proposer for his encouraging words, and paid a well-deserved tribute to him. He spoke of the achievements of Old Boys, and of the difficulty in getting the School to realise what they meant. When the School was informed that an O.M. had won the Ireland and First Craven at Oxford, the School looked up and asked "What is that?" Continuing, the High Master spoke of the pitiful plight of a School that had no Dr. Mumford to chronicle its history, if it had any history. He made an earnest appeal to those back from the war to carry on the good work of peace, which was so urgently necessary.

The Dean (Dr. Swayne) proposed the toast, "The Memory of Old Boys Fallen in the War." The Dean claimed that the great public schools, notwithstanding the criticisms levelled against them, did not fail when the test came.

Mr. Pappadimitriou gave "The nine o'clock toast" to all absent Old Mancunians. Dr. Mumford proposed "All Old Boys returned from the War." Captain Nicholls, on behalf of the returned men, replied with a happy speech.

Sir Arthur Haworth, in proposing the toast of the "City and Borough of Manchester," emphasised the influence the Grammar School exerted in the corporate life of Manchester. Alderman William Kay, Deputy Lord Mayor of Manchester, said he was proud to own the School as his *Alma Mater*. He appealed to the Old Boys returned from the war to use their broadened visions in the best service of their city.

Mr. T. A. Reekie submitted the toast, "Francis Jones, Esq., M.Sc." He quoted letters he had received from O.M.'s in praise of Mr. Jones. "Mr. Jones was the only Master at the School who succeeded in making me interested in anything."

Mr. Jones, in reply, declared modestly that it was sometimes not realised how the Master was indebted to the boys, rather than to himself. Manchester and Lancashire boys brought capital brains to the School.

After Mr. G. H. Baxter (Oxford), on behalf of the Universities of Oxford and Cambridge, had proposed the toast of "The Stewards and the Recorder," the Dinner came to an end with the singing of "Auld Lang Syne" about ten o'clock.

## The Roll of Honour.

### KILLED IN ACTION.

Blackstock, J., Lieut., R.A.M.C., attd. N. Staffs. Regt. (Oct., 1918)  
Bickerton, T. H., 17th (S.) Bn. Manchester Regiment (1916)

### DISTINCTIONS.

Holme, R. C., Major, awarded the Portuguese Order of Christ (Nov., 1919)  
Jalland, H. H., Lieut., 1st Black Watch, mentioned in despatches for gallantry in the field (18th Oct., 1918)  
Knowles, —, Capt., R.G.A., awarded the Greek Military Cross (Nov., 1919)  
Lam, S. H., —, awarded the Naval Meritorious Service Medal (Oct., 1919)  
Nuttall, W. E., Capt., R.A.F., awarded the M.B.E. for work in a Royal Aircraft Factory  
Sinclair, K., Lieut., R.E., mentioned in despatches (Nov., 1917, second time)  
Watts, W. N., Staff Capt., R.T.E., appointed Chevalier of the Star of Roumania

## Personal Note.

---

Lieutenant Basil Tempest, 13th Manchesters (1906-10), killed in action in May, 1917, on leaving School passed his Matriculation and entered the service of Messrs. Mather and Platt as student apprentice. In July, 1914, he gained a County Council Scholarship for the University. As soon as the war broke out he enlisted, but was detained by the Authorities for training in the O.T.C. He received his commission in January, 1915, went out to France in July, and in the following November to Salonica. "As the Senior Subaltern in the Company," writes Captain F. J. Taylor, "he had the option of leading the first wave of the attack on the Bulgar lines, and he jumped at the idea immediately. He guided and controlled his men across No Man's Land, and was the first to enter the enemy trenches. For the rest of the night he was in charge of the advanced sentry groups and reconnoitring patrols. Next morning at about 4-15, during a Bulgar counter-attack, he got up on the parapet, walked forward, firing a Very Light, to see how things were. A shell burst close to him, and he was mortally wounded."

---

## O.T.C. Notes.

---

The War Office has given its approval to the transfer of Temp.-Lieut. D. H. Griffiths, R.G.A., to the unattached list of the Territorial Force to command the School O.T.C., with the rank of Temporary Captain.

---

### THE UMPTEENTH BATTLE OF HOLCOMBE.

Thanks to a special holiday for training purposes the O.T.C. journeyed to Bury on December 12th, and an exciting battle was fought on the hills close to the familiar monument of Holcombe.

Detraining at Bury, we soon got out into the country, and while the enemy, consisting of ex-C.S.M. Coe and a skeleton force, were taking up their positions, R.S.M. Brophy initiated us into the mysteries of Main Guard, Vanguard, connecting files, etc. Then began the main operation of the day. We were an Advance Guard pressing on the heels of a retiring enemy, who was doing his utmost to delay our advance. Marching in this formation we were soon in contact with the enemy, for a sudden volley surprised the "Point," which, after some little hesitation, deployed and engaged the enemy. Meanwhile reports reached the Main Guard, and soon they reinforced the Vanguard and putting the weight of the attack on the enemy's right flank the O.C. Main Guard soon had the enemy on the run, and the loss of a machine gun—"scuppered" by some of the dauntless—left the enemy in a parlous condition. Unfortunately for us our old C.S.M. had lost none of his old cunning, and, choosing just the right moment for retiring, speedily took up another strong position, from which we had to dislodge him.

But the attackers were not to be denied, and the flank attack was just about to be pushed home and the *coup de grace* administered to the gallant remnants of the defence, when the O.C.'s whistle sounded, and after the usual inspections and collection of the "empties," we marched off to the Range House close by, where both sides demonstrated their efficiency to the full.

After an instructive "Pow-Wow," where we had the benefit of the advice and criticism of Captain G. W. Sutton, D.S.O., Adjutant of the M.U.O.T.C., the N.C.O.'s paid a visit to the rifle range, and came away longing for the fine weather when they might prove their prowess with the service rifle.

The day was gloriously fine, and as we marched off in the bracing air we shed crocodile tears at the thought of our Schoolfellows hard at it in the balmy breezes of Long Millgate. As, however, we had to send in a reconnaissance report of the march, these sad thoughts were soon dispelled by mental notes of the resources of the surrounding country. Holcombe Station was soon reached, and thence we entrained for School with excellent appetites ready for the O.T.C. Social and Concert. Lack of space, however, prevents us from describing these in detail, but a word of praise must be given to our new refectory manageress for the splendid fare, and to Lieutenant Stafford and his artists for the excellent sing-song.

In the good old days it was customary to burn witches and wizards, and we often used to wonder why, but now we wonder no longer, for should those palmy days return, we foresee a great trial scene wherein the fate of a somewhat ruddy cadet, standing at the bar, hangs in the balance while the big wigs discuss the great question, "Is a magician a wizard?"

It was cheering to see so many of our old N.C.O.'s present, and we hope next year that many more of our ex-cadets will make merry with those who still "carry on."

---

Our new N.C.O.'s are making good progress, and the keenness displayed in the certificate A class augurs well for the future. After the next examination we trust we shall see several of them sporting the coveted red star.

At the end of last term we had a recruiting poster competition, and many good designs were received. The first prize was won by A. B. Clayton, R.β, who depicted a squad of Owlets being drilled by a very officer-like owl, while the second and third places were taken by our two senior N.C.O.'s, Lance-Corporals Taylor and G. D. Wild. The response to this appeal, however, has been rather disappointing, for we had looked for a big influx of new recruits to swell our numbers. Members of the corps should do their utmost to remedy this, since we cannot be a unit worthy of our School while our numbers remain so low.

The "Country Life" Shooting Competition looms ahead, and already the process of team-building has begun. We hope to repeat our success of 1916, when we carried off the trophy. It should be the ambition of every cadet to get a place in the team.

D. H. G.

---

## O.M.A. United Services Section.

---

The Territorial Section of the O.M.A. is now known as the United Services Section and, in addition to carrying out the objects for which the Territorial Section was originally formed, will hold social gatherings from time to time for the purpose of enabling Old Mancunians who have served in the Navy, Army, Air Force, and Volunteers to keep in touch with each other.

A Smoking Concert, to which all eligible O.M.'s are invited, will be held in the Exchange Hotel, Fennel Street, on Thursday, the 25th March next, at 7 p.m. Tickets 1s. (including Tax) can be obtained from the Hon. Secretary or any member of the Committee.

The School O.T.C. will be encouraged by a resumption of the annual presentation of spoons for efficiency and good shooting.

The annual competition in shooting for the Challenge Cup presented by Sir William Bailey will also be revived.

Not the least important of the tasks entrusted to the Section is the correction and completion of the Roll of Honour, which it is hoped may later be printed and published in a suitable and worthy form. The Section relies on the effective assistance of every O.M. for the adequate discharge of this task.

All eligible O.M.'s are urged to send full particulars of service, etc., together with the annual subscription (2/6) to the Hon. Sectional Secretary, Lieut. F. D. Webb, 90, Deansgate, Manchester.

---

## Cambridge Letter.

---

Caius College, Cambridge,

Dear Ulula,—

January, 1920.

I learn that *faute de mieux* I have been commissioned as scribe-in-ordinary to the Cambridge Section; to a section which now numbers well-nigh a score, as large as it has ever been, I understand, since the memory of man, and which has developed a corporate life as robust and full of sap as any pre-war age. At our meetings our elders (from the very Ancient of Days tanned by Oriental suns to such as were *in statu pupillari* at some period during the war) in their lucid intervals (between squad-drilling or filing a petition) have been, of necessity, yet discreetly enough, benevolent Lord Chesterfields to certain of the younger and more raw levies who tread the halls of the *Alma Mater* for the first time. We do not despair that we shall all, ere our race be run, acquire a tincture of that cosmopolitan receptiveness and culture (which does not solely consist in calling our native city Menchester) which is one of the dearest boons these ancient (and expensive) seats of learning can impart.

Apart from our brilliant historical exception at Pembroke, and a not less brilliant locomotor exception at Peterhouse, we inhabit two of these seats only—St. John's and Caius,—where some of us acquired laurels at soccer, some at rugby, and others of us promise to do so in a more strictly academic sphere. . . . while we all feel that we are no unworthy element in the concourse of gentlemen from all quarters of the kingdom, which actually is numerically larger, and considers itself to be, more enlightened, more in touch with Reality and the *vie d'actualité* than ever before in its history.

With all my good wishes, and by proxy those of all members of the Section,

SCRIBA CANTAB.

## Football.

---

### SCHOOL v. WEASTE ELEVEN.

At the Cliff, on November 8th. School in the river goal. The game was very fast, the play going from end to end. Just before half-time Jacques scored for School. Half-time: School, 1; Weaste, 0.

In the second half Weaste re-arranged their forward line, but Jacques scored again for School. Towards the close Weaste scored. Result:—  
School, 2; Weaste, 1.

Team.—Kirsop; Sharp, Gilchrist; Worthington, Blake, Kemp; Tarbett, Whitehead, Hobson, Jacques and Turner.

---

### SCHOOL v. DALTON HALL.

At the Cliff, on November 22nd. School kicked towards the river goal. Dalton Hall scored quickly from close range, and after a little time, Jacques scored, Hobson helping the ball farther through. Hobson put the School ahead. Half-time: School, 2; Dalton Hall, 1.

In the second half Dalton Hall scored twice before School. School equalised, and then scored a fourth goal, Hobson and Jacques scoring the goals. Result:—

School, 4; Dalton Hall, 3.

Team.—Kirsop; Ellis, Sharp; Worthington, Blake, Kemp; Tarbett, Whitehead, Hobson, Jacques and Gilchrist.

---

### SCHOOL v. Y.M.C.A.

At Alexandra Park, on November 29th. School played downhill, but Y.M.C.A. led 3—2 at half-time.

The second half was much spoiled by fog, but School scored five times. Goals: Whitehead (4), Hobson (2), Blake.

Team.—Kirsop; Ellis, Sharp; Worthington, Blake, Kemp; Tarbett, Whitehead, Hobson, Jacques and Gilchrist.

---

### FIRST ELEVEN v. H.O.L.C.

Saturday, December 13th, at the Cliff. It was with our team still weakened owing to the absence of members taking scholarships that we faced the Lads' Club on a heavy ground and under a dark and cloudy sky. Play at first was very scrappy, and H.O.L.C. rushed two goals through in the first few minutes. School then scored twice, Holmes netting the ball each time. We now began to settle down, and for the remainder of the first half play was fairly even, but the Club managed to score again just before the whistle went. Half-time Score:—School, 2; H.O.L.C., 3.

We continued to have quite as much of the game as our opponents, and had every hope of making the game at least a draw. After about a quarter of an hour's play more, School seemed to fall to pieces altogether, and at the end of the game, which was played in semi-darkness, the Club had most of their own way, scoring three times more. Final Score:—

School, 2; H.O.L.C., 6.

---

### FIRST ELEVEN v. MACCLESFIELD G.S.

Saturday, January 17th, at Macclesfield. School was able to play a much stronger team against Macclesfield than last term, but found themselves confronted with a correspondingly stronger opposition. Kicking off

down hill with a fairly strong breeze, School found it difficult at first to gauge the pace of the ball, and several promising opportunities were missed, owing to the speed with which the ball, aided by the wind, rolled down the slope. School soon broke through, however, and Shimmin, a new forward who made his *début* in this match, opened the scoring. After this came a considerable period of mid-field play, in which School generally showed greater finish than the home team, and after several futile rushes Hobson found the net, following on a *melée* in the goal-mouth. Half-time Score:—School, 2; Macclesfield G.S., 0.

A margin of two goals did not seem much of an advantage with which to face the combined disadvantages of wind and slope, but School increased the lead shortly after the resumption, Shimmin running through in fine style, and repeating the performance a few minutes later. Macclesfield now began to attack more confidently, but many promising runs on the wings were discounted by poor centring, and the good tackling of our backs, who, after a very unpromising start, had now gained confidence and were playing a sound game. One more goal was added by Jacques before time was blown. Score.—

School, 5; Macclesfield G.S., 0.

Team.—Kirsop; Sharp, Gilchrist; Whitehead, Blake, Kemp; Tarbett, Hobson, Shimmin, Jacques, Turner.

#### FIRST ELEVEN *v.* BOLTON G.S.

Saturday, January 24th, at the Cliff. For the second time this season School failed to field a full eleven to meet Bolton Grammar School. School won the toss, and defended the river goal. The game opened in bright sunshine. From the kick-off Bolton made a determined attack, which was foiled by our halves. The ball was taken down the wing, and School attacked the Bolton goal persistently. The visitors, however, were playing a keen game, and the match had proceeded for about twenty-five minutes before School succeeded in penetrating their defence, when Shimmin found the net with a slow ground shot. This was followed almost immediately by a second goal, resulting from a magnificent long range shot by Tarbett. Bolton now made insistent attack upon our goal, which failed to score owing to the sound display of the School back line, now reinforced by Windsor's return, and the score at half-time remained at 2—0 in our favour.

Resuming against the wind, School immediately re-opened the attack, and before many minutes had elapsed the Bolton goal had had several narrow shaves, two superb shots from Kemp, who was playing a brilliant game at left outside and left half, causing the opposing goal keeper a great deal of trouble. Play was confined mostly to the Bolton half, and soon School was awarded a penalty for handling. Hobson took the shot and scored with a hard shot right in the corner. Bolton now began to lose spirit and resigned themselves more and more to the defensive, making only sporadic rushes into our half. We accordingly attacked the more confidently, and a fourth goal came as a result of some pretty short passing between Jacques and Shimmin. School followed up this success, but in spite of pressure on the visitors' goal, failed to increase the score. Result:—

School, 4; Bolton, 0.

Team.—Kirsop; Windsor, Sharp; Whitehead, Blake, Kemp; Tarbett, Hobson, Shimmin, Jacques.

#### FIRST ELEVEN *v.* DALTON HALL.

Saturday, January 31st, at Birch Fields. Following a period of heavy rain, we were quite prepared to find the ground in a somewhat sloppy condition. But the actuality was enough to daunt the most resolute. After

a walk of about half a mile from the Hall we arrived at a field to all appearances swamped. The goalmouths were flooded, the field was furrowed lengthways, had a noticeable slope, and was absolutely unmarked. Dalton Hall won the toss, and decided to defend the slightly less swampy goal, and, after a hasty calculation of the approximate locality of the centre, kicked off. They soon opened the scoring and by half-time had amassed a total of four, their own goal remaining intact. The weather conditions of themselves were sufficient to make real football well-nigh impracticable. On changing round, School playing down the hill made a promising movement which was only prevented from bearing fruit by handling on the part of one of the home team. The referee apparently did not notice this, and it was only after repeated protests that we were awarded the penalty which was our due. Hobson took the shot and left no doubt about it. The game proceeded from bad to worse, and our opponents manifested an acquaintance with the shadier side of the game which in no way fell short of the expectations we had formed on the strength of their earlier efforts. All of this was unchecked by the referee; perhaps he did not see it! One of the few bright spots in this disgusting exhibition was the plucky display of Kirsop, who made many good saves in spite of great difficulties; no blame attaches to him for the size of the score. By the time the whistle went, Dalton Hall had added three goals to their half-time score, School having scored only once. The final score was 7-1, a score representative not so much of the difference in football capacities of the respective elevens, but rather of the home team's sublime disregard for the recognised conventions of present-day football. Under such circumstances it is more creditable to be the losing side.

Team.—Kirsop; Windsor, Sharp; Whitehead, Blake, Kemp; Tarbett, Hobson, Shimmin, Jacques, Gilchrist.

---

## Lacrosse.

---

### M.G.S. FIRST TEAM v. STOCKPORT G.S.

Away on November 12th. In the first half School were easily the better team, the half-time score being 6-1 for School.

In the second half School took matters too easily, and the result was that Stockport forced a draw. Result:—

School, 6; Stockport G.S., 6.

Team.—Wilson, Deacon, Mitchell, Blake, Jeans, Attenborough, Barker, Tomson, Mayor, Fielden, Exley and Gibson.

---

### M.G.S. FIRST TEAM v. COLLEGE OF TECHNOLOGY.

On November 19th. School opened very nicely, Fielden scoring the first two goals. The College then started to play up, and soon passed our score. Our defence played very well against a clever attack. Result:—

College of Technology, 10; School, 5.

Team.—Wilson, Deacon, Mitchell, Blake, Holland, Jeans, Barker, N., Cunliffe, Mayor, Tomson, Barker, K., and Fielden.

### M.G.S. FIRST TEAM *v.* OLD HULMEIANS "B."

At home, on November 22nd. The visitors turned up with three men short, so we gave them Barker, K., and Gibson. Again Fielden opened the scoring, and after this School scored goal after goal. At half-time School was leading by 11 goals to 1. Result:—

School, 18; Old Hulmeians, 1.

Team.—Wilson, Deacon, Mitchell, Blake, Jeans, Barker, N., Tomson, Exley, Mayor and Fielden. Played for visitors: Barker, K., Gibson.

## Scouting.

### PROSPECTOR BADGE EXAMINATION, December 15th.

The following passed:—

Troop I.—J. Dearden.\*

Troop II.—E. Grundy, E. Haydn.\*

Troop III.—R. P. Bannister, N. W. Clark, L. P. Cole, H. N. Hargreaves, S. H. Pilkington, J. F. Tegg, A. L. Walker, H. Wilcock.

Troop IV.—J. Andrew, D. Gledhill, E. A. Needham, F. Short, R. N. Smith, H. Thompson, N. Elliott.

Outside Troops.—H. J. Dawson, H. Hilbert, F. Lindores, L. A. Morris, F. A. Nicholson\*, S. M. Hawes, E. L. Ball, G. D. Willis.

\*With Distinction.

### FIRST CLASS BADGE.

The following have passed this term:—

Troop 3.—A.S.M. Johnson, P.L. Fuchs, P.L. Clarke, 2nd Blight, 2nd Bretherton.

Troop 4.—P.L. Andrew, P.L. Jennett.

KING'S SCOUT BADGE: A.S.M. Johnson.

## Literary Society.

A Meeting of the Society was held on Tuesday, December 16th, when Mr. Warman read one of Conrad's short stories, entitled, "The Secret Sharer." The story was characteristic of Conrad's works in that it dealt with the sea and illustrated the author's wonderful gift of vividly bringing the scene of a story before the reader's mind. The various incidents of the plot aroused the reader's interest to such an extent that the denouement seemed rather abrupt and disappointing.

A Meeting was held on Tuesday, January 20th, when Mr. Hirsh read a paper on the Talmud. He began his paper by appealing to his audience to judge the Talmud as a literary work on its own merits. He then proceeded to relate how it grew from the Pentateuch, and how it eventually reached us after a long and eventful history. Among the many interesting facts concerning the ideas and doctrines held by the composers of the Talmud was the one that they vigorously opposed capital punishment and succeeded

to a great extent in abolishing it. Mr. Hirsh concluded his paper by reading a few of the stories of the Talmud. They were allegorical for the most part, and amusing, though all were deeply moved by the famous story of "Hannah and her seven sons." The meeting ended with a vigorous discussion. A. H.

## Junior Debating Society.

November 14th.—Pearce moved, "That this House demands a more stringent censorship of Films," saying how impossible and improbable the majority of films are. After half a dozen speeches the House divided. The motion was lost by 28 votes to 8.

November 21st.—Kershaw moved, "That this House favours resumption of trade with Germany." Griffiths, opposing, patriotically declared that one Britisher was worth six Germans any day. Seventeen speeches followed, by far the most eloquent being those of the President, Blore and Adler. On division, the motion was carried by 28 votes to 11.

November 28th.—The President in the chair. Storey moved "That this House considers the reading of so-called 'Bloods' by the present generation as harmless," declaring the majority of critics had never read one, so were incompetent of judging. Bowden, opposing, said he enjoyed reading the more elevating works of Scott and Shakespeare. Other speakers were Stewart, Proffitt, Moulst, Castell, Stout, Hutt and others. On division the motion was won by 24 votes to 18.

December 5th.—The President in the chair. Griffiths opened a discussion on the School Magazine. Criticism followed from Proffitt, Bowden, Storey, Hutt, Wilkinson, and McKeone. The last-named moved, "That this House demands the improvement of the School Magazine, *Ulula*." Two of the sub-editors of the Magazine, Haslam and Wilson, appeared in its defence, assisted by Mr. A. G. Cox. They did their utmost to bring the House round to their "sensible" point of view. It seems that they failed, for the motion was carried by 22 votes to 14.

December 12th.—Mr. T. H. Floyd (O.M.) in the chair until the Presidents's arrival. McKeone moved "That each Nation be allowed to manage its own affairs." Wilkinson opposed, dealing with both our colonies and Russia. Excellent speeches followed from Messrs. K. L. P. Martin (O.M.), T. A. Crossley (O.M.), T. H. Floyd (O.M.), and a few others. The motion was carried by 20 votes to 12. The House adjourned to the Coal Exchange Café at 5-15, and afterwards to the Hippodrome, where we spent a most enjoyable evening with our old friends.

January 16th.—The President in the chair. McKeone moved "That I.O.T.H., India, as a nation, would be improved by the withdrawal of the British Rule." Of course, he brought in his pet subject of Ireland. Speeches followed from about a dozen members, about two-thirds of those present speaking. The motion was lost by 7 votes to 10.

January 23rd.—The President in the chair. Morris moved "That a Labour Government would be an improvement on the present Coalition." Kershaw opposed, and McKeone spoke third. Speeches followed from Greenwood, Button, Wilkinson, Cox, Griffiths, Hitchens, Blore, Webber, Adler, Stern and Pearce. At 5-30, after a very successful debate, the House divided. The motion was declared a draw, 13 voting either way.

E. WILKINSON, *Hon. Sec.*

## Philosophical Society.

---

A Meeting was held on December 3rd, when C. E. Marshall gave a lecture on "Felt and its Uses." Felt is exclusively made from fur and wool. Seen under the microscope, fur and wool show scales similar to those on a fish, and when the fur or wool is suitably treated and pressed these scales interlock, thus making the substance very difficult to tear. The principle use of felt is for hats, but it is also largely used for roofing and as a floor-covering. The lecturer gave an account of the process in the manufacture of felt hats. The fur is chiefly rabbit fur, but beaver is used for the best hats. The fur, after cleansing, is made to form a skin on a revolving cone by blowing it on to the cone. This skin is carefully removed and pressed, after treating it with dilute sulphuric acid. The process is called "felting." The felt is pressed into the required shape for the hats, stiffened with shellac, dyed, and finished.

A Special Meeting was held on December 9th, this year being the Jubilee of the Society. Mr. Francis Jones gave the lecture, and among the old members of the Society who were present was Mr. R. L. Taylor, who was on the staff of the School fifty years ago, and was one of the first members of the Society.

Mr. Jones gave a lecture on "Cavendish." He gave a short history of the life of this remarkable man, and then proceeded to deal with Cavendish's work in Chemistry. He concluded with a statement of the facts of the "Water Controversy." Cavendish was a cold, retiring man, and it is said that no man capable of speech spoke so few words in such a long life as Cavendish. In 1776 he gave the first complete account of the gas now known as carbon dioxide. In his experiments with this gas mercury was used for the first time to collect gases which are soluble in water. Cavendish also investigated the gas hydrogen and showed that, when it is mixed with oxygen and a light brought near, an explosion occurs. Cavendish investigated the composition of air, and found that one per cent. of the air would not combine with hydrogen by any amount of sparking. This observation was verified more than a century after. Cavendish's greatest discovery was that of the true composition of water, and owing to his discoveries the "Water Controversy" has died a natural death. He was attracted to the research by an experiment of Priestley, to which that chemist paid no attention. His method was to spark varying volumes of air or pure oxygen with hydrogen and to measure the volumes before and after. During the lecture, Mr. Jones performed experiments to illustrate the discoveries of Cavendish. The lecture was greatly appreciated by all who were present.

R. G.

---

## Natural History Notes.

---

The Natural History Department has lost a good friend by the death of Dr. Berlin. Hardly a week passed that he did not come to Room 34 with some question to raise on a point of natural history, or some specimen of plant or animal life which he thought would interest the boys. The very last week he was at the School he brought a contribution to the Museum.

The Microscope presented to the School has now arrived. On a brass plate it bears the inscription: "Presented by Mr. H. Crummack, an Old

Mancunian, to his *Alma Mater*, 1919." Considerable and valuable additions have been made to the instrument by Mr. Crummack, in order that it may meet any demands upon it. It is now equipped with no less than five objectives, viz.: 2 inch, 1 inch, Reichert 8a,  $\frac{1}{8}$  inch, and  $\frac{1}{12}$  inch; the latter for oil immersion. A condenser has been added, with some other details. The alterations have been made by Messrs. Thomas Armstrong and Co.

Mr. F. P. Barker, of Blackpool, who writes that he has "often read in *Ulula* of the gifts to the School Museum," has sent us several cases of moths, butterflies, and insects, and some native curios, collected by himself while living on the Gold Coast.

The thirteen beautiful drawings of the successive phases of the moon, which have now been placed in the Upper Gallery, were kindly photographed for the School by Mr. R. H. Fletcher, of Eccles. In the same gallery the working charts of the Solar System and of the Satellites of Jupiter and Saturn are in the charge of F. Barlow (Mod. VI.); and that of the moon is in charge of A. N. Adamson (Sc. VI.)

A scorpion has been presented to the Museum by Burnett (ii  $\beta$ ), and other details by Needham (iii  $\alpha$ ), Handley (Sh. C), Johnson (Sh. B), Andrew (MR), and Jennett (MR).

---

## Music Study Circle.

---

Friday, November 21st.—An open Meeting was held in the large lecture theatre, when Mr. Carl Fuchs, the eminent 'cellist, gave a Lecture-Recital on "The Development of 'Cello Music since the time of Bachs." The appreciation of Mr. Fuchs' playing was fully shown by the loud applause of the large attendance, the lecture theatre being comfortably full. Mr. Fuchs said he did not intend to give much of a lecture, as he thought that the voice of his 'cello would more adequately express his thoughts and feelings than he himself would be able to do. By way of introduction he told us the age of his 'cello, which is over a hundred years old, and greatly amused all present by relating an anecdote; how that when he had been out playing one night, the cabman on carrying in the 'cello, said, "Where shall I put th'arp, sir?"

### PROGRAMME.

1. Sonata in F.....*Benedetto Marcello* (1686-1739).
2. Sarabande and Bourree, from Suite in C (unaccompanied)  
.....*J. S. Bach* (1685-1750).
3. (a) Adagio from Arpeggione-Sonata.....*Schubert* (1797-1828).  
(b) Minuet .....*Haydn* (1732-1809).
4. (a) Elegy .....*Fauré* (1845—).  
(b) Abendlied .....*Schuman* (1810-1856).  
(c) Spanish Serenade .....*Glasinoff*.
5. (a) A Night Song .....*Elgar*.  
(b) Gavotte in D .....*Popper* (1843—).

The last piece, by Popper, perhaps the greatest of all composers of 'cello music, was so much appreciated that Mr. Fuchs was constrained to played an Encore, Dance by Rachmaninoff.

The last meeting of the term was held in the Drawing Hall on Friday, December 5th, when Mr. and Mrs. Warman gave a lecture-recital on Italian Songs,

which was highly appreciated by all present. The songs, which were all sung in Italian, were excellently rendered by Mrs. Warman, who accompanied herself. A few notes and brief translations were given between the songs.

## PROGRAMME.

"Sento nel core"	}	..... <i>A. Scarlatti</i> (1659—1725)
"Son tutta duolo"		
"Gia il sole dal Gange"		
"Bella porta"	}	..... <i>Falconieri</i> (16th century)
"Occhietti amati"		
"Pupilette"		
"Come raggio di sol"		..... <i>Caldara</i> (1671—1763)
"Amarilli"		..... <i>Caccini</i> (1546—1614)
"Danza, danza"	}	..... <i>Durante</i> (1684—1755)
"Vergin tutt' amor"		

S. G. C.

---

## Astronomical Society.

---

The Astronomical Society met on December 4th, 1919, in Mr. Dakers' room, fifteen being present. The Minutes of the preceding Meeting were read and passed unanimously. The Secretary took the chair and called upon J. Tomlinson to give his lecture on "The Movements of the Solar System."

The lecturer first stated that the Solar System was moving in space towards the star delta Cygni. This, he said, caused apparent changes in the shapes of the various constellations, so that by watching the changes we could calculate the speed at which the Solar System is moving. The nebular hypothesis, by its theory of condensation of nebulae into stars, offers some explanation of this.

The Secretary proposed a vote of thanks to the lecturer, saying that the lecture had exceeded all his expectations, and was, in his opinion, exceedingly well composed. O. Elsdon seconded. It was carried unanimously.

The Society met again on Thursday, January 29th, in Dr. Bruton's room, with an attendance of some 45, the largest attendance up to the present. In the temporary absence of the chairman, Dr. Bruton took the chair. The Minutes were read and passed, and the Secretary, J. D. Kershaw, proceeded to read a paper on "Eclipses of the Sun and Moon."

He began by explaining, with the help of lantern slides, the theory of total and annular Solar eclipses. He next proceeded to features of the eclipse, and after shewing a series of slides to illustrate the progress of an eclipse, he mentioned Baily's beads and the Solar corona, illustrating the latter by a number of excellent slides.

He next dealt with the history of the Solar eclipse, tracing important eclipses from Chinese days down through the ages. He dealt afterwards with the theory and history of lunar eclipses.

J. Tomlinson proposed a vote of thanks and O. Elsdon seconded. It was carried unanimously, and the meeting adjourned about 4-10 p.m.

## Chess Club.

Our latest results in the A League are as follows:—School 6, Hulme Church 1; School 6½, Manchester ½; School 5, Altrincham 2.

The First Team has thus won four games out of five up to date, and has a good chance of gaining the League Championship. The Second Team has also won another match, this time against the Ladies. Score: School 5½, Ladies 1½.

The contest for the Intersides Shield, at present held by the Mathematical side, will begin this term, also the School Championship tournament. There has been a steady increase in membership since midsummer, and this promises to be a record season.

The Mathematical Sixth challenges the rest of the School to a level match, six aside.  
H. SANSOM.

## Gymnastic Competition.
