All ordinary communications to be addressed to the Editors, the Grammar School, Wakefield. The Annual Subscription to the Magazine is 1/6, or 1/7½ post free. The Magazine is published at the end of Term. Intending Annual Subscribers are requested to inform the Editors.

News of Old Savilians will be specially welcomed for inclusion in the Old Savilian Notes, and should be addressed for that purpose to G. E. Webster, Esq., 8 South Parade, Wakefield, or C. H. Head, Esq., at the School.

EDITORIAL NOTES.

IN common with all other schools, our life this term has been a good deal modified by the War. Gaps have been caused in the regular teaching staff, the usual public Speech Day has been abandoned, our football fixture list has been curtailed of its engagements with other than school clubs, and drill, especially in the latter part of the term, has largely taken the place of school games.

x x x

On another page we give a list of names comprising our Roll of Honour, which for length, and we believe also for quality, bears testimony to the patriotic spirit of our Old Boys. Doubtless, if full information were available, the roll would be considerably enlarged. We dispense in this issue with the usual Oxford and Cambridge letters for the simple reason that nearly all our undergraduate Old Savilians have taken, or are preparing to take, commissions.

x x x

This year has been one of melancholy loss, as regards our Governing Body. Two more old friends and Governors of the School have passed away this term—Alderman W. H. Milnes, J.P., and Dr. W. A. Statter, J.P. For many years both gentlemen showed a close and sympathetic interest in the School's affairs, and devoted to its welfare what must in the aggregate have been a very large portion of their time. Their loss is deeply regretted.

DE OMNIBUS REBUS.

THE country's call has taken from us this term Mr. Oughtred and Mr. Fletcher. Both masters took a great interest in the outdoor life of the School, particularly football and cricket. They received a hearty send-off on their departure, and will return to us after the War. We have welcomed in the posts thus temporarily vacant, Mr. H. H. Brown, B.A., of Queen's College, Oxford, and Mr. E. W. Farrell, B.A., of University College, Dublin.

x x x

At the end of this term we lose our Senior Classical Master, Mr. P. S. Richards, M.A., who has accepted a government appointment in South Africa. Our best wishes will follow Mr. and Mrs. Richards, with the hope that along with a congenial climate they will find all happiness in their new home.

The new Senior Classical Master next term will be Mr. G. Saunders, M.A., of Trinity College, Cambridge.

x x x

The Prefects this term have been S. P. Hayward, E. R. Sudbury, H. L. Hopper and G. W. Webster.

x x x

Last season's cricket Colours were awarded to E. R. Sudbury, A. G. Shackleton and C. Burgess.

x x x

S. P. Hayward and E. R. Sudbury were appointed Captain and Vice-Captain of football. Our football record this term, as will be seen in the detailed accounts, has been one of striking success. It is a great misfortune that some members of the team are leaving School at the end of this term.

x x x

Squad Drill has been carried out with the participation of the entire Senior School. In the present circumstances, which have made it difficult to obtain a sergeant instructor, we are much indebted to Mr. A. H. Barnes, who has been kind enough to manage the drill with the assistance of some of the Masters. The Infantry Drill Manual is being carefully studied by a number of our Senior boys, who are thus qualifying themselves to take small squads.

x x x

A Lecture with lantern slides on "Painters and Schools of Painting," was given this term by the Headmaster to the Upper boys. We also owe our thanks to Mr. Plumbridge for his well illustrated and appropriate lecture on "Belgium."

x x x

County Major Scholarships, also Storie Exhibitions, were gained by A. G. Shackleton and O. D. Dixon.

x x x

Percy E. Dixon has been awarded a Hastings Exhibition for Natural Science at Queen's College, Oxford.

CRICKET MATCH.

THE Annual Cricket Match between teams of past and present members of the School took place on Wednesday, July 29th, under the captaincy of Mr. H. A. Close and S. P. Hayward respectively. The Old Boys put a very strong team into the

field, and, under the circumstances, the present boys did not at all badly against their more powerful opponents. The two teams were entertained to luncheon and tea by the Headmaster and staff, and the School Sports Club. Later in the afternoon a large number of ladies and friends were present. The result of the match was a first innings victory for the Old Boys. Scores:

OLD SAVILIANS' LAWN TENNIS TOURNAMENT.

THE first attempt to hold an Open Lawn Tennis Tournament in Wakefield was made by the Old Savilians' this year. It was held on Friday and Saturday, July 17th and 18th on the Wakefield Cricket Ground.

The event proved a great success, and there were no fewer than 164 entries for all the events, which were as follows:—

Event 1	Gentlemen's Singles	(Handicap)
" 2	Ladies' Singles	(Handicap)
" 3	Gentlemen's Doubles	(Handicap)
" 4	Ladies' Doubles	(Handicap)
" 5	Mixed Doubles	(Handicap)

Play should have commenced on Friday at 2 o'clock, and it was intended to finish the first round on that day, but heavy showers somewhat hindered the course of play. However, Saturday proved a much better day, and eight courts were kept going uninterruptedly from 9 a.m. to 9 p.m. This proved too short to finish the different rounds, and the finals had to be held over until the Monday, when they were brought off on the Pinderfields Tennis Ground, kindly lent for the occasion.

The winners were:—

GENTS' SINGLES:—Mr. R. B. Constantine (rec. 30) first, and Mr. G. G. Blakey (owe 15) second.

LADIES' SINGLES:—Mrs. E. C. Moorhouse (owe 15) first, and Mrs. J. Holdsworth (scratch) second.

GENTS' DOUBLES:—Messrs. R. B. Constantine and G. Armitage (rec. 30) first, Messrs. W. F. Beard and R. E. Melly (rec. 15) second.

LADIES' DOUBLES:—Misses Hatton and Seaton (rec. 15) first, and Miss M. C. Taylor and Mrs. J. H. Holdsworth 4/6 second.

MIXED DOUBLES:—Miss Armitage and Mr. Constantine (rec. 30) first, Miss M. Siswick and Mr. Blackshaw (15) second.

The Prizes were given by the President, (Lieut. Col. H. J. Haslegrave) J. B. Cooke, Esq., Councillor G. Blakey, and the Old Savilian's Club.

The thanks of the Club are due to Messrs. Blakey and Pflaum for kind assistance given before and during the competition, as well as to the enthusiastic committee charged with the necessary preparations for the Tournament. Although expenses were naturally very heavy, a small balance was carried forward for a nucleus for other competitions, &c., of a like nature.

ANNUAL SWIMMING SPORTS.

THE tenth Annual Swimming Sports were held on September 28th. As usual there was quite a large gathering, this event always proving a very interesting feature of the Michaelmas term. Only one record was broken—the long plunge, in which J. T. Green passed the previous mark by quite a long distance. The diving too was particularly good and entertaining. All the races were keenly contested, and the handicapping was very well arranged, thanks to Mr. Head and the committee. The competition for the Sugden cup was, as usual, very interesting, especially the attempts at saving an apparently drowning person. J. E. Kilburn, who represented the drowning person, was (successfully or unsuccessfully) dragged by the chin, ears, and even hair—which latter some of the competitors found especially useful. One youthful life-saver, after dragging him almost to the steps, gave up the attempt, and left his luckless patient to drown. The comic race produced much laughter. The swimmers, after donning a copious shirt, had to swim with a lighted candle from one end of the bath to the other. As most of them carried the candle in their teeth, and made agonised attempts to keep the light from going out, their expressions were most ferocious. The final of this race was very exciting. Last of all, the usual Polo match took place, the Hornets and Swifts defeating the Bees and Magpies by 4 goals to nil.

The judges were Mr. Head, Mr. Beard and Mr. Brooke, and the starter Mr. Welch. Committee: R. Hargreaves, A. Mellor, J. Lawe, J. Hall, C. N. Spencer and W. H. Massie; the Secretary being J. E. Kilburn.

The results were as follows:

This Year's Learners' Race (one length)—1st, A. E. Sunderland; 2nd, F. Hargreaves.

Greaves Cup Championship (four lengths)—1st, A. Mellor; 2nd, J. T. Green.

Last Two Years' Learners' Handicap (two lengths)—1st, H. A. Firth; 2nd, G. C. Scott.

Plunging and Diving (Greaves Cup). Plunging—1st, J. T. Green; 2nd, A. Mellor. Diving—1st, A. Mellor; 2nd, R. C. Powell.

Breast Stroke Handicap (two lengths)—1st, C. Burgess; 2nd, J. C. Heptonstall.

Handicap for Mrs. Barton's Prizes—1st, H. A. Firth; 2nd, F. Wrigley.

Sugden Cup Competition. (1) Diving for Weight—1st, A. Mellor; 2nd, J. T. Green. (2) Best method of towing apparently drowning person to the bank—1st, J. T. Green; 2nd, A. Mellor.

Comic Race—1st, D. M. Shackleton; 2nd, F. Earnshaw.

Sugden Cup (two lengths race in clothes)—1st, A. Mellor; 2nd, J. T. Green.

Two Lengths Open Race—1st, A. Mellor; 2nd, R. C. Powell.

Polo Match—Hornets and Swifts beat Bees and Magpies, 4—0.

FOUNDERS' DAY AND PRIZE DISTRIBUTION.

THE Annual Celebration of Founders' Day took place on Tuesday, November 24th, in the School Hall. In conjunction with this, the prizes for the year were distributed, instead of holding the usual annual Speech Day. There were present, the Spokesman of the Governors (Mr. G. W. Green), Mr. J. J. Bevitt, Mr. A. K. Blackburn, Mr. A. H. Barnes, and others. The service included the lessons, the first of which was read by Mr. G. E. Webster, and the second by S. P. Hayward (head prefect), the customary prayers in commemoration of benefactors, with the addition of special references to Masters and old boys now serving with the army and navy, and also a portion of a psalm and two hymns.

After the service, the Headmaster explained that the Governors this year had decided, in view of the peculiar national circumstances, to dispense with the usual Speech Day in one of

the large public halls of the city. Such a gathering would have had, in its nature, something of a festive character, and it was felt that festive proceedings were unsuitable. Accordingly the distribution of prizes was to take place in the School itself.

The annual list of School distinctions, which Mr. Barton described as maintaining the good standard of previous years, included two West Riding County Major Scholarships (won by O. D. Dixon and A. G. Shackleton), a Hastings Exhibition for Classics at Queen's College, Oxford, and an Open as well as a Cave Exhibition for Mathematics at Clare College, Cambridge, and the Leicester Exhibition at University College, Oxford. Special distinctions were the award to C. A. Scutt, for the second time, of a University Scholarship at Cambridge in the shape of the Prendergast Studentship for Classical Research, and the high place gained by J. Senior, a former Storie Scholar of the School, who had taken a position among the first six men of the whole of Cambridge University in the First Class of the Classical Tripos.

The prizes having been distributed, the Spokesman gave a brief and appropriate address. He first paid a tribute to the late Dr. Statter, reminding us that he had not only been a Governor and a life-long friend of the School, but had himself been an old Grammar School boy. The speaker then dwelt particularly on the call of the time, which demanded from boys, as well as from men, a spirit of manliness, straightforwardness and duty. His remarks were directed principally to the average boy, and he pointed out that such boys, by the realisation of the best that was in them, might outstrip their more talented fellows, and, in any case, were the element on which the real spirit, reputation, and lasting good work of a school depended.

Without any formal resolution, the Spokesman was thanked by loud acclamation for his much appreciated address. The Headmaster, in accordance with custom, invited the presentation of a poem in honour of Queen Elizabeth. This was duly offered by H. L. Hopper, with the consequent declaration of a holiday for the remainder of the day. The School song, in which the aforementioned choir rendered the verses and the whole School howled the chorus, together with the National Anthem, brought the proceedings to a close.

A list of Prize Winners is appended :

THE LATE DR. W. A. STATTER.

It was with deep regret that we learnt a fortnight ago of the death of Dr. Statter. We felt, just as the whole City felt, that we had lost a real friend whose place will be difficult, if not impossible to fill, in his relations with the Grammar School. For every good cause brought to his notice he had "a hand as liberal as the light of day," and he always carried with him a magnetic charm which won for him the hearts and confidence of all who were privileged to come into contact with him. He was one of the most active men in Wakefield, and he worked unceasingly to promote the welfare of the community.

He was educated at the Grammar School, and there took an active part in the Cadet Corps, being an Ensign when the present Lieut.-Col. Wright was Captain in the Corps. Having completed his medical course he returned to Wakefield, and assisted his father, eventually succeeding to the practice. Seventeen years ago he was made a Justice of the Peace for Wakefield, and the organisations which have claimed his interest and active support are too numerous to mention in this brief note: so broad and varied have been his interests and public work.

At all times, however, he strove to maintain his connection with the School. In addition to the office which he held as Governor, he interested himself in all the athletic departments of school-life. Particularly he encouraged swimming, in which he himself excelled, and he presented us some years ago with a handsome silver medal for gymnastic exercises: again he was always to the front in his help towards the annual sports. From its very beginning he took an active part in the life of the Old Savilians' Club, which elected him as its first President.

Though he has gone from our midst, we cherish a happy remembrance of him, and we join the whole City in expressing our deep sympathy with Mrs. Statter in her great loss.

THE TERM'S FOOTBALL.

At the beginning of the season our prospects were distinctly good. Of last year's pack only Giggall and Shackleton were missing, and their places were soon taken by Heath and Holmes, who have shown themselves quite capable of fulfilling their duties. The backs were equally promising with such veterans as Mellor, Burgess and Dutton in their ranks. Garbett and Hodgkins filled the vacancies caused by the departure of Dixon and Lund, and have proved themselves players of a similar calibre; and we have lately discovered a dashing player in Tooth to fill Shaw's place.

Our hopes for a really good season were high and they have been realised to the full. Mr. Head has seen a good few Grammar School football teams, and his verdict is that he never saw a better one than the present. Out of the eleven matches played up to date, ten have been won, and one resulted in a pointless draw. Points for: 247. Against: 39.

During the first few matches we had some uncomfortable half hours. At Ripon we just snatched a victory on time, and at Leeds we were rather lucky to secure a draw, but in the main we were better than our opponents. Our traditional rivals Bradford were vanquished by 25-nil.

Of the Second Team we have but a sorry tale to tell. They succumbed at the beginning of the season to Ilkley First XV., and for some time afterwards the success was not unmixed. However, they have wound up the term by defeating Woodhouse in grand style, twice in succession, and "all's well that ends well."

W.G.S. v. Mr. O. D. DIXON'S XV. *September 26th.*

At home. Mr. O. D. Dixon's team kicked off with the wind, somewhat depleted in numbers. The vacant places were soon filled up and the game was keenly contested, the School forwards playing a good game, but the passing of the backs lending itself to criticism. However, this should improve with practice. N. S. Smith scored an easy try for School at a "line out" on our opponents' try line, but Massie failed to convert. Soon afterwards Birkenshaw broke away but was brought down by Dutton with an excellent tackle. He again broke away and scored, Hirst kicking the goal. Half-time came with the score 5-3 against School.

In the second half School pressed hard, and Burgess scored a good try, Massie again failing to convert. There was no further score and "no side" was called with School victorious by 6 points to 5.

Team:—*Dutton; Hodgkins, Garbett, *Burgess, Smith, N. S.; *Mellor, Boxall; *Hayward (Captain), *Sudbury, *Dixon, P. E., *Massie, Kilburn, Ellison, Heath, Robinson.

W.G.S. v. RIPON G.S. *October 10th.*

At Ripon. Hayward won the toss, so we played with the sun at our backs during the first half, and down the field. In the forwards it was soon evident that we could hold our own as regards speed, weight and keenness, although we could not depend on pushing home any successful attack. Our opponents' back line constantly gave us trouble, but the successful tackling

of Mellor, and the well judged kicking of Dutton saved the situation. Hargreaves at scrum-half was at a disadvantage in being so small, consequently the heeling of our forwards in the scrum was sometimes neutralised. Garbett scored first, but Massie failed to kick the goal. Ripon then attacked well and succeeded in scoring a converted try. Score at half-time—W.G.S. 3 points, R.G.S. 5 points.

At the beginning of the second half we fell to pieces altogether and were unable to prevent Ripon scoring two tries and kicking one goal. We were thus faced with a disadvantage of ten points. At this juncture our spirits revived, and an excellent forward movement resulted in Massie scoring; who then kicked a very good goal. After this, the forwards held their own and enabled the backs to attack more often. Garbett, by a very fine break away, scored, and Massie brilliantly converted. Finally, almost on time, Burgess intercepted a pass, and by side-stepping his pursuers in fine style scored, and enabled Massie once more to exhibit his excellent kicking. Result—W.G.S. 18 points, R.G.S. 13 points.

Team:—*Dutton; Hodgkins, Garbett, *Burgess, Smith, N. S.; Hargreaves, *Mellor; *Hayward (capt.), *Sudbury, *Dixon, P. E., *Massie, Kilburn, Hopper, Ellison, Heath.

W.G.S. v. SKIPTON G.S. *October 14th.*

At Skipton. School won the toss and decided to play with the sun at their backs, and down the hill. Play was rather slow until nearly half-time, when one of their three-quarters managed to scramble over the line. This try was not converted and the score was 3-nil in favour of our opponents when the whistle blew for half-time.

In the second half things brightened up considerably, and good play and passing amongst the backs resulted in a try scored by Hodgkins, who took a neat pass from Garbett and dashed over the line under the posts. The resulting goal gave us a lead of two points. After this, the forwards, who had been rather slack, began to play harder and got the ball out by means of Ellison to Mellor, who, after dribbling, scored a try which was also converted by Massie. After more passing amongst the three-quarters, Hodgkins again scored. This was not converted. Play was fairly even for some time till Garbett got the ball and scored just before "no side" was called. This again was not converted, and the game ended with the score of 16 to 3 in favour of School.

Team:—*Dutton; Smith, N.S., Peel, Garbett, Hodgkins; *Mellor, Ellison; *Hayward, (capt.), *Dixon, *Massie, Kilburn, Hopper, Heath, Holmes, Smith, G.G.

W.G.S. v. HYMER'S COLLEGE, HULL. *October 17th.*

At home. Hull kicked off with the sun at their backs. Play settled down in the Hull half, and after about seven minutes hard play Burgess got over at the corner: Massie failed to convert. Soon after one of the Hull centres scored, but no goal was forthcoming. Play again settled in mid-field, neither side gaining advantage. From a free-kick Massie kicked a goal and put School in front, but just before half-time Hymer's scored again and the necessary points were added. Half-time score, Hymer's College 8, W.G.S. 6.

School kicked off at the recommencement of the game, and a score was soon added for School. Burgess transferred to Peel on the run, and the latter got over at the corner. Massie kicked a good goal, and School was thus three points in advance. After another ten minutes play, a strong forward rush resulted in Kilburn scoring, but no goal was kicked. Hymer's tried very hard after this, but in vain, and just before time Burgess scored again, but no goal resulted. Final score, W.G.S. 17, Hymer's College 8.

Team:—*Dutton; Hodgkins, Garbett, *Burgess, Peel; *Mellor, Ellison; *Hayward, *Dixon, *Massie, Kilburn, Hopper, Holmes, Heath, Boxall.

W.G.S v. BRADFORD G.S. *October 24th.*

At home. School found themselves opposed to a slightly lighter pack and a somewhat uncertain, if speedy and dashing three-quarter line. Following an early scramble, Hayward broke away and transferred to Hopper, who passed to Sudbury for the latter to score: Massie converted. Thus enlivened, School played strongly and soon initiated a pretty three-quarter movement, which enabled Burgess to score: Massie again converted. The forwards now managed a good deal of passing among themselves, resulting in Hayward adding to the score with a try: Massie failed at goal. Half-time score, W.G.S. 13, B.G.S. nil.

Second half witnessed exciting play. Hayward was early presented with an unopposed try from a "line out": Massie missed with a good attempt. Three-quarter play following, resulted in first Mellor, then Burgess running through for tries, Massie having the misfortune to miss both goals. Finally, Garbett intercepted a pass, and scored a good try. For the fifth time Massie could not direct the erring cow-hide between the elusive uprights. Score, W.G.S. 25, B.G.S. nil.

Team:—*Dutton; Hodgkins, Garbett, *Burgess, Smith, N. S.,; *Mellor, Ellison; *Hayward (captain), *Sudbury, *Dixon, *Massie, Hopper, Kilburn, Holmes, Heath. Referee: Mr. Head.

W.G.S. v. LEEDS G.S. *October 31st.*

At Leeds. The weather was very wet and the ground muddy. School attacked from the start and kept Leeds in their own "twenty five." From a penalty Mellor made a good but unsuccessful drop at goal. The ball was very greasy and many good passing movements were spoilt: Garbett ought to have been over but apparently failed to hold the ball.

In the second half School pressed continually, but failed to materialise their efforts. The absence of Burgess was greatly felt in the three-quarters. Result, nil-nil.

Team:—*Dutton; Hodgkins, Garbett, Tooth, Aspinwall; *Mellor, Ellison; *Hayward (captain), *Sudbury, *Dixon, *Massie, Hopper, Kilburn, Heath, Holmes.

W.G.S. v. POCKLINGTON S. *November 4th.*

At home. School made up their minds to play hard, and in the first five minutes Sudbury rushed over the line, but Massie failed to convert. In an even shorter interval Dixon scored after a "line out," and Massie again failed at goal. The Pocklington backs broke away, but through the good work of Mellor and Dutton, School were again pressing hard and Kilburn, picking up in the loose, scored a good try: Massie failing at his third attempt. In a few minutes Kilburn had again scored, and this time Mellor succeeded at goal. Within a minute of half-time, after some good passing in the three-quarter line, Tooth scored, thus making the score 17-nil.

In the second half the game was a little more subdued, the main feature being a rapid follow-up by Dutton, the full-back, who tackled his opponent and scored. After some good passing by the Pocklington backs they succeeded in scoring and kicked the goal. Mellor succeeded at two drops at goal and Hodgkins and Garbett scored, but both goal-kicks failed. The final result was very satisfactory, the highest then scored by School during the term. W.G.S. 34 points, Pocklington 5 points.

Team:—*Dutton; Hodgkins, Garbett, *Burgess, Tooth; *Mellor, Ellison; *Hayward (captain), *Sudbury, *Dixon, *Massie, Holmes, Kilburn, Hopper, Heath.

W.G.S. v. MIRFIELD COLLEGE OF RESURRECTION.

November 7th.

Played at home. School started towards the city, and by a forward rush carried play to the Mirfield half. Play fluctuated for some time, and School were hard pressed on many occasions. Our backs were undoubtedly feeling the effects of the mid-week match: however, they were quick to take all the chances given. Mirfield were attacking in force,

but our backs punted hard up the field. They followed up quickly, but fumbled with the ball, and almost spoiled a chance of scoring. However, Sudbury gathered the ball, and passed to Hodgkins, who scored: Massie failed to kick the goal. Soon after the restart, after a fine passing movement, Garbett scored, and Mellor converted from a difficult position. Half-time score, School 8, Mirfield 0.

In the second half, Mirfield started strongly, but failed to register any score. Then our forwards broke away and carried play to the other end. From a line-out Holmes got possession and scored an easy try: Massie failed with the kick. Soon after, Burgess registered one of his usual tries, and Massie landed a goal. In the later stages, School became slack, and Mirfield scored a converted try. Score: School 16, Mirfield 5.

Team: *Dutton; Hodgkins, Garbett, *Burgess, Tooth; *Mellor Ellison; *Hayward (capt.), *Sudbury, *Dixon, *Massie, Kilburn, Hopper, Holmes, Heath.

W.G.S. v. WOODHOUSE GROVE S. *November 14th.*

Played away. This match resulted in an easy win for School. From the kick-off, Woodhouse were in difficulties, and as a result of some good passing among the School three-quarters, Tooth scored, Massie converting. Play continued in the Woodhouse half, until they broke away through faulty tackling, but with no result. Again play returned to mid-field, and, by excellent passing, Dixon, Mellor and Hodgkins scored in quick succession. Half-time arrived with the score 19-0 in School's favour.

The second half was practically a repetition of the first, but was enlivened by a great individual effort by Mellor, who, taking the ball from a free kick, evaded all his opponents, and would easily have scored but for the splendid tackling of the opposing full-back. Massie and Burgess also scored, the former after a good dribble. When "no side" was called, the score had amounted to 51 points—nil.

Team.—*Dutton; Tooth, *Burgess, Garbett, Hodgkins; *Mellor, Ellison; *Dixon (capt.), *Massie, Kilburn, Heath, Holmes, Bradley, Hainsworth, Sutton.

W.G.S. v. WOODHOUSE GROVE S. *November 28th.*

At home. Woodhouse kicked off towards the town, and play was quickly carried into our opponents' "25": unsuccessful attempts at scoring were made by School, till Sudbury broke away and scored, for Massie to convert. Soon afterwards Holmes succeeded in scoring from a "line out," but Massie failed to kick the goal. Tooth was the next to score an excel-

lent try from another "line out," Massie again failing at goal. The passing amongst our backs had hitherto been faulty, but they were now getting more expert in handling the sticky ball: Smith, N.S. as a result, scored two tries in quick succession, the first being an individual effort, the second the result of good passing: Burgess converted the former. Half-time score, 19-nil.

The forwards were suffering from not having their usual complement, and were not playing so hard as usual.

In the second half, Ellison, Hodgkins and Burgess were the scorers, Hodgkins getting twice over the opponents' line: Massie kicked two of the goals, but failed at the other, whilst Burgess converted his own try. Excellent tackling by the opposing three-quarters and especially by the full-back prevented further scores. Final result, W.G.S. 37 points, Woodhouse Grove School nil.

Team:—*Dutton; Hodgkins, Garbett, *Burgess, Smith, N.S.; Ellison, Tooth; *Sudbury (captain), *Massie, Kilburn, Holmes, Heath, Hainsworth, Bradley, Aspinwall.

W.G.S. v. SKIPTON G.S. *December 5th.*

At home. School won the toss and immediately pressed very hard, in spite of the very muddy ground and persistent rain. In about five minutes Sudbury broke away and scored, but Massie failed to convert. Dixon next got over the line after some good forward play, Massie again failing to convert. Massie made a good dribble soon after, for Ellison to score. Burgess and Smith, N. S., then scored good tries.

In the second half the backs played very well, the passing greatly improving, and Smith, N. S. again scored: Massie failed to convert any of these tries as the ball and ground were very heavy and the wind squally. Burgess soon afterwards scored, Garbett failing. Smith, N. S. and Burgess both scored again nearly on time, Garbett and Burgess failing at goal. The result was 27 points in School's favour, Skipton nil.

Team:—*Dutton; Hodgkins, Garbett, Tooth, Smith, N. S., ; Ellison, *Burgess; *Sudbury (captain), *Dixon, *Massie, Kilburn, Holmes, Heath, Hainsworth, Smith, G. G.

DEBATING SOCIETY—SESSION 1914-15.

ON 17th September, the following were elected to the Committee:—Hayward, Hopper, Sudbury, Webster, Womack and Massie. Hopper was then elected Secretary and Mr. Young was asked to take the Chair for the ensuing session, which he kindly consented to do.

The first debate was held on September 25th, on the motion "In the opinion of this House, warfare is necessary to civilisation, and that which it attains cannot be otherwise achieved." Hopper proposed, Sudbury opposed: other speakers were Hayward, Mr. Beard, Mr. H. M. Wilson, Massie, Mr. Gibling and Mr. Scutt. Motion lost 14-7. The debate was a successful *première* and gave promise of a session of vigorous activity.

On October 9th there was held a jumble debate. In all, there were fourteen speeches, including four "maidens," which were received with the customary humorous applause.

The inter-debate with the Bradford G.S.D.S. was held at School on October 24th. The motion was "That in the opinion of this House the experience of the present war will preclude the possibility of future warfare among Christian nations." Massie proposed, Baxter (B.G.S.) seconded; whilst Smith (B.G.S.) opposed and Hopper seconded the opposition. Afterwards Hayward, Speight (B.G.S.), Garbett, N. S. Smith, Sudbury and Mr. Gibling, spoke in the order given. The motion was lost 18-5. There was a good attendance and a plentiful supply of speakers on our part. Those who did speak were interesting and varied in their remarks. The society acquitted itself very well on this occasion.

It is only to be regretted that the inter-debate with the Leeds G.S.D.S. was prevented: an inter-debate being generally more appreciated than a home one.

On November 7th it was decided to have no debate, but instead, a species of "literary" evening. Massie first read from *A Tramp Abroad*; Webster then gave a short paper on "Germany"; P. E. Dixon then followed with an interesting but incomprehensible essay on "Matter," backed up with a similar effort on "Origin of Life"; whilst Hopper concluded the evening with remarks on "Wagner." Mr. Young spoke after each reading.

The Session has been a success in its first half, and gives promise of continued activity in the society.

THE SCIENTIFIC SOCIETY.

Friday, October 2nd. First meeting this term. Membership of 57 boys. Only model was one of a Swing Bridge by Brooke.

Friday, 16th October. Most successful ordinary meeting. There were a number of fine models. To enumerate the better of these: we were first shown a Mechanical Navy made from Meccano outfits, which necessitated the use of 150 nuts and bolts. It was a simplified model of the genuine article. This was shown by Glover and Heptonstall. A model Signal Station with mast and semaphore, was also brought by its manufacturer, Dews. Among the other models was one of London Bridge by Dixon, and a small Battleship.

Friday, October 23rd. Informal committee meeting. The following motions were passed:

That the Society should act as an agency between the members and electrical advertisers.

To elect a Secretary for the above.

To re-form the Photographic Sub-Section.

To Elect a Sub-Secretary.

Dews was elected to the former post; C. Morris to the latter.

Friday, October 30th. Meeting in the Physics Laboratory at 6.30. At this meeting again we had a good number of models: Pit Head Gear by Dixon, and model of Meccano Lighthouse by Horsefall and Robertson, with half-minute light.

The Photographic members then had a meeting in the Advanced Laboratory, at which the following were elected to

the committee:—Morton, Ellison and G. G. Smith; the Secretary being C. Morris.

Friday, November 13th at 6.30 p.m. Usual meeting gave place to a discussion on the relative merits of the different types of primary cell. Mr. Gibling took the chair.

The discussion was opened by the Chairman calling upon A. H. Morton, who gave a concise account of the main types of cell.

Then N. S. Smith delivered an interesting discourse in favour of the Leclanche type of cell.

H. C. Dews then spoke and introduced to the notice of the majority an entirely new form of cell, *i.e.*, the Fuller modification of the Bichromate.

Lawe then supported the dry cell, and Morris the Gravity Daniel, but the latter received no support.

The result of the meeting when put to the house was as follows:—

Bichromate (Fuller)	...	22 votes
Leclanche	10 votes
Dry	2 votes
Daniel (unseconded)	...	

Friday, November 27th. Two short lecturettes were given at this meeting.

1. "Paper Gliders," by Lawe.
2. "Gas Light Printing and Toning," by C. Morris.

The former was an interesting lecture. The lecturer discoursed shortly upon the history of the Glider, and then proceeded to fly some paper Gliders.

C. Morris then gave his demonstration of Gas Light Printing, saying how it was possible to judge an exposure and also discoursing upon the different papers, developers and toners.

Mr. Welch then showed the Society an interesting experiment with an earthed wire, by tapping the return circuit of the electric tramways. The meeting was then closed.

JUNIOR SCHOOL NOTES.

[CONTRIBUTED BY A VERY JUNIOR BOY.]

At the beggining of the term I found to my joy that I was moved up, but now I wish that I had not been moved up, I don't like our sums at all. Most of the form are glad that we have got a new geog. book for the old one was as dry as biskits.

There has been some excitement in the 2nd Upper by a new lesson introduced by Miss Holmes. In the two lowest forms they have started a Nature Study Museum and it is on the walls on cardboard, the things are tied on neatly with blue and pink ribbon. The First Upper are very proud of their war map and the little flags are put in daily where the fighting is going on. The British flags don't seem to have moved far from their trenches these last two months. Of course II Upper have won Mr. Hoskins' form Cup for this term, and it has left a dirty mark on the walls of the old form room.

We had Founders' Day and Speech Day all in one this term. Mr. Savill the founder of the School gave away the prizes after we had sung several hymns and one of the Governors had read a lesson from Ecclesiastes, he told us he was once a boy himself.

Several Jounier boys got prizes. Capewell got the Spelling prize I was knocked out in the first round.

We have had measles in the School. One boy put some tooth-paste on his cheeks to resemble spots and everybody thought he had got measles until dinner time when he had to wash, so in the afternoon he was cured.

We are practising hard for the Beed Home match now. At the beginning of the term I regret to say that Mr. Giles found his peasticks disappearing for the game of peastick hockey in the Jounier play ground, but Mr. Baynes put a stop to it. The Siners are having military drill and a proper man to drill them. We have a Secret Sossiety in our playground. We capture a boy and then court marshall him when we decide his fate which is generally frogmarching round the play ground.

LETTER TO THE EDITOR OF THE SAVILIAN.

SIR,—In the last issue of the *Savilian* there was an interesting account of Charles Hoole, but upon one point I think the writer is a little misleading. He appears to me to say that Hoole wrote the *Orbis Pictus*. Of course, the real author was Comenius himself, the Moravian Bishop (A.D. 1671), of whose work, originally in Latin, Hoole's must have been a translation. The book was no doubt amusing, but its original purpose was serious as well. Its aim appears to have been the improvement of language teaching. Munro says, it was not merely the first illustrated text book for children, but it substituted real things for the mere symbols or words, which then made language learning a mere empty and useless drudgery of words, without attention to objects in the early stages, or to ideas behind the words in the later.

It may interest the author of the article to know that so famous was the book that it was translated into sixteen languages at least, including Arabic and Mongolian.

SCRUTATOR.

A LETTER FROM SIAM.

The following is an extract from a letter from Mr. N. L. Selley, an Old Savilian at Bangkok in Siam.

"I have been here nearly three years now, and my ears are just beginning to be attuned to the language. One essential motto of the native seems to be 'why do today, what you or someone else may do next week?' The language is a toned one, the same word often meaning different objects, according to how the voice is pitched. The signs of the language are quite easy to read in one's own mind, and one can pick up a 'working coolie knowledge' in about six months. The coinage

is silver, the chief coin being the tical, worth about 1s. 6d. This is divided into nickel 'stangs' (or cents). As the Chinese are very fond of making spurious lead coinage, it behoves the shopkeeper to test his pieces with a magnet. There are also paper notes of various amounts.

There are four large English schools here, *i.e.*, where English is mostly taught. Each of these schools has about 500 boys. Previously, the schools were connected with the temples, and the priests were the teachers. The boys now play soccer (in bare feet), and though good players, they are very fond of fouling.

There are about 500 Europeans here: of these, about 250 are British. We have a large Sports Club, where we play Rugger, Soccer, Golf and Tennis. Rugger is played at 90° in the shade, during the rainy season, whilst Soccer is played in the dry. Cricket is played on Sundays from November to March.

The mails and business are upset owing to the war: we get very little news, a few Reuter's telegrams only, and the Legation Report twice a week. We do not know when or where the mails go."

OLD SAVILIAN NOTES.

SINCE writing the "notes" for the July number of this Magazine much has happened and history has been made of a kind little dreamt of by any of us at that time. Those of us who, from various causes, are compelled to stay at home, are reading day by day stirring accounts of the glorious deeds of our countrymen who are fighting to free Europe and the world from the threatened danger of a despotic militarism, and now, after four months in the field we are all beginning to look forward to the time when peace on a permanent basis will be restored. Early in September the Committee of the Old Savilians' Club was called together to decide what should be done to enable the School to have a complete record of all those who had joined the various services. The circular issued to members, asking for information for the "Roll of Honour," was the result, and in another part of this issue we print a list of names. We are proud of this list, and shall welcome new names, together with any corrections which may be found necessary. Mr. Head has undertaken this work, and all letters should be addressed to him.

It has been decided not to hold either the Annual Dinner or the Dance, but it is probable the Committee will arrange a Whist Drive, the proceeds of which, should any balance be left on hand, will be handed to one or other of the Relief Committees' Funds.

Our members will share with us the sincere sorrow and loss we have sustained by the death of Dr. William Aked Statter, who, after a long and painful illness, died on Sunday, November 22nd. He had been a member of the Club from its inception, was elected its first president in 1898, and always took a lively interest in everything appertaining to the welfare of his old School and Club. We print on another page a short account of the many activities in which he shared.

We congratulate on their marriage:—

Mr. A.E. Blackburn to Miss M. Williamson.

Mr. J. B. Baynes to Miss L. A. Kingswell.

Mr. C. Clarke to Miss B. Dunnill.

Mr. A. H. Dunnill to Miss Rollinson.

The Lawn Tennis Tournament held in July (a report of which appears elsewhere), resulted in a balance of £2 15s. 11d. being left in the Treasurer's hands. For a first venture, and despite wet weather, this may be considered highly satisfactory.

We wish to make a special appeal to our members for short interesting letters. With so many living under new conditions and undergoing strange experiences, it seems to us an opportune time to ask for news of their doings, besides "to strengthen the ties between past and present" in a new and very real sense.

We regret exceedingly that the call of duty has deprived us of the services of our new and active Assistant Hon. Secretary, Mr. A. M. Angus. We shall hope to welcome him back safe and well after the war is over. Our President (Lieut.-Col. H. J. Haslegrave), together with Lieut. E. A. Greenwood, Captain J. P. Firth, Private F. W. Brown, from our Executive, are also doing service, and we wish each and all a speedy and safe return.

The editors wish to acknowledge with thanks receipt of the following magazines, apologising for any omissions:—*Hill and Dale, Leodiensian, Batley Grammar School Magazine, Frestonian, Pocklingtonian, Olavian, Liverpool Institute School Magazine, Rock Magazine.*

SCHOOL ROLL OF HONOUR.

THE following is the list exhibited in the School Hall, of the Old Boys now serving the nation. We are indebted to Mr. Head for its compilation, and he will be pleased to receive intimation of any unavoidable omissions or mistakes. This list does not include members of the O.T.C. at Oxford and Cambridge and the other Universities, who may be called upon to serve at any time. Other names are known to the School authorities, of those who have offered themselves but have been rejected on physical grounds: to these we offer our special sympathy.
